

ROLPH OR MCCARTHY TO BE CHOSEN IN SAN FRANCISCO TOMORROW

Mayoralty Fight Drawing
to a Close After Hot
Fight.

FOUR YEAR TERM

Election Frauds Feared and
Extra Precautions to
Be Taken.

SAN FRANCISCO, Sept. 24.—The mayor who will welcome the nations of the world to San Francisco at the opening of the Panama-Pacific exposition in 1915, is likely to be chosen at a primary city and county election here day after tomorrow.

The election is the first under a charter amendment providing that any mayoralty candidate must be elected by a majority of the voters at a primary election and the first at which a mayor is chosen for a four year term. Mayor P. H. McCarthy is running for re-election after serving two years. James Rolph, Jr., a business man, is his strongest opponent.

The election officially is non-partisan, but party organizations of the county have named their preferences, the Union Labor party endorsing Mayor McCarthy and the Republican and Democratic organizations endorsing Rolph. Fred Albert, head of the endorsement of the Socialist and Socialist Labor parties respectively for the mayoralty.

The registration is the largest in the history of the city. A few charges have been made of illegal registration and it was said tonight the municipal conference, a civic organization, is prepared to swear out warrants for about forty more persons on the same charge.

Mayor McCarthy is running on his record, claiming that he has established industrial peace, improved working conditions in the police and fire departments and in the schools and has made the percentage of law breaking in San Francisco smaller than in any city of its size in the world. He opposes the city charter amendment.

Rolph advocates a new city hall, public ownership of public utilities, particularly the water front, improvement of the water front and preparation for the exposition. The Rolph people deny most of Mayor McCarthy's claims. Both men pronounce in favor of union labor.

Warning to all persons who may be inclined to cast a fraudulent vote at the municipal primaries Tuesday, and to all election officials was given today by Thomas V. Cator, president of the board of election commissioners, who addressed a mass meeting attended by nearly all the city's election officials, the other members of the board of election commissioners, the members of the grand jury, the 300 watchers appointed by the municipal conference committee and a large number of citizens attending in a private capacity. President Cator said that the full force of the Commonwealth of California would be invoked to prevent fraudulent voting and to punish all those detected in so doing.

President Cator gave an analysis of the election law and of the instructions to precinct officials and to watchers at the polls. Then he made a complete announcement of the precautions that have been taken to prevent illegal voting, saying that they were more complete than ever before in the history of the city.

In the main the warning was made for the benefit of the men who are to serve on election boards, and in this connection President Cator said: "I have sent men to the state prison from this city for mis-telling votes, and am ready to do it again if necessary."

FOWLER FAILS AGAIN TO CROSS THE SIERRAS

Gains Height of 7500 Feet
When His Engine Quits
Work.

COLFAX, Cal., Sept. 24.—Engine trouble terminated today Aviator Robert G. Fowler's second attempt to soar above the 7000-foot pass in the Sierras in his attempted transcontinental flight, which began September 10. After a burst of phenomenal speed, he alighted in a meadow in Emigrant Gap five miles from here, gliding from an altitude of 7500 feet, at which height his engine quit working. This altitude, he maintained, should get him safely over the pass in the third attempt, which he expects to make tomorrow morning.

Starting at Colfax at sunrise, he circled aloft for nearly twenty minutes, rising 3000 feet above the ground, and then, swinging down, was lost to sight in four minutes. His first twenty-four miles were made in twenty-one minutes. Then at Blue Canyon, he circled seventeen minutes for higher altitude starting east with a fine margin. As he passed 2000 feet above Emigrant Gap, his engine stopped absolutely and he was forced to the ground, landing in a meadow, collected his belongings and went back to the airplane with which they traveled all day.

Two broken stays, a fractured skid and two disconnected wire stays sunk up the damage sustained by the machine in landing. Fowler said tonight he will surely start tomorrow.

500 KILLED IN EXPLOSION OF A FRENCH BATTLESHIP

MARSEILLES, Sept. 25.—Fire broke out early today in the ammunition hold of the French battleship *Liberte* and the vessel sank nineteen minutes later. Nearly five hundred of the crew are dead.

JORDAN ALLEGES TECHNICAL ERROR AT SACRAMENTO

SACRAMENTO, Sept. 24.—John P. McLaughlin, commissioner of the Bureau of Labor Statistics, has not qualified for his office, and needs to be reappointed, according to a statement issued today by Secretary of State Frank C. Johnson. Assistant state engineer, James V. Sapp, in the same statement, says, is in the same predicament. Jordan gives dates to show that neither officer filed his bond within the specified time, 110 also asserts that while the law allows 100 notaries in San Francisco county, 101 have been commissioned; that bonds in several instances have received the approval of the governor where the principal had not signed them, and that undervalued censures have been issued by the secretary of state by errors made in the governor's office. "In 100 instances," in the absence of notaries' certificates. For all these things Jordan holds the governor's office responsible.

The statement, which is addressed to Governor Johnson, and is in reply to an interview given by the governor concerning the secretary of state, suggests that the governor license hotel and traveling expenses amounting to \$751.75 incurred during the opening months of the year while the executive lived at a hotel because the executive mansion was being rehabilitated.

It also suggests that a bill for \$2,401.15 for furniture for the mansion be itemized and of a third bill be itemized and the items in this claim which should not be paid by the state. The statement concludes that the governor is exempted by statute from filing itemized statements.

The statement declares that the governor has refused to the secretary of state "that recognition to which I was entitled as a brother officer," and terminates with an appeal that squabbling cease.

"The controversies we have engaged in," it says, "do not benefit the state."

PAROLED CONVICT COMMITTS ROBBERY

Severe Beating of Aged
Woman is Involved in
His First Offense.

SAN FRANCISCO, Sept. 24.—Michael Nolan, some months ago paroled from the state penitentiary at San Quentin where he was serving a twenty-five year sentence for assault and robbery, was arrested here this morning following a charge by police, patrolling in house, many shots were fired, Nolan and three others attacked a pedestrian, whose cries for help were heard by the police. Robert Ebert, a member of the band, also was arrested, both men being booked for an attempt to commit robbery.

The crime for which Nolan was sent to the penitentiary was one of the most brutal in the annals of San Francisco. With two others he entered a home in daylight, and beat Mrs. T. V. Matthews, the aged mistress of the house so badly that for a long time it was feared that she would die from her injuries. Then they robbed the house. All three were given long sentences, but Nolan was paroled at the instance of friends.

YOUNG GATES TO BE MARRIED THIS WEEK

Miss Florence Hopwood
Goes to Uncle's Home
for the Ceremony.

MINNEAPOLIS, Sept. 24.—Charles Gates, son of John W. Gates, who died recently in Paris and Miss Florence Hopwood, daughter of Mr. and Mrs. Frank Hopwood, of Minneapolis, will be married Wednesday in Uniontown, Pa., at the home of Miss Hopwood's uncle, Robert R. Hopwood. Miss Hopwood, her parents and a small party of friends tonight are en route to Uniontown.

The announcement that the wedding will take place in Uniontown came as a surprise here, it had been announced that Miss Hopwood was to be married at her home here.

Arrangements for the wedding were made quickly and it was not until Miss Hopwood left Minneapolis for the east that the change in plans became known.

The bridegroom at the wedding will be Miss Margaret Clemens of St. Charles, Minn. Wayne Doherty of the Port Arthur, Texas, state that Mr. Gates has made arrangements to be there in two weeks, thus making a European trip impossible. After the wedding Gates and his bride will leave in a private car for their honeymoon.

UMPIRE EVANS' BLOWS CAUSE GENERAL FIGHT

2000 Spectators Threaten to
Become Rioting
Mob.

JEERS ARE RESENTED

Street Cars Stopped in
Effort to Locate
Baseball Man.

CLEVELAND, Sept. 24.—Umpire William Evans hit one man, beat up another and was himself roughly handled following the Cleveland-Philadelphia baseball game here today. A general fight resulted and a crowd of 2000 spectators swarmed on the field and around the participants. Spectators objected to several of Evans' decisions and when the game was over and Evans walked toward the club house, a man jeered him, with an oath. Evans says, and Evans struck him. Evans again started for the club house and in front of the entrance another man is said to have cursed him.

Evans resented this with his fists and soon there was a general melee, though he complained of a pain in his back where some one kicked him.

"The first fellow used some pretty foul language," he said. "His fists were clenched but I hit him first. I did not hurt him. He knocked off his hat. The other fellow, standing in the entrance to the club house refused to let me by and I hit him several times. I am sorry such a thing occurred, but I had to defend myself."

Several years ago Evans was nearly killed when hit by a pop bottle at the St. Louis American league game.

After Evans had been spirited away in an automobile to a railroad station and out of the city, the crowd started to stop street cars in an effort to find the umpire. Two who resembled Evans were pulled from cars but the police rescued them.

FOUR EARTHQUAKES IN ECUADOR CAUSE SERIOUS DAMAGE

GUAYAQUIL, Ecuador, Sept. 24.—Four earthquakes today did serious damage at Riobamba, the capital of Chimborazo province, which lies about eighty-five miles from Guayaquil. The shocks continued throughout the day, but with diminishing intensity.

At the first shock a great panic prevailed among the people. Many buildings were shaken badly and several collapsed. The occupants of most of the houses fled to the streets, where they have since remained.

At Guaranda, capital of Bolivar province, twenty-five miles from Riobamba, the shocks were heavy. The walls of a number of residences collapsed. The seismic disturbances are attributed to the Tungurahua volcano in the southern part of the province of the same name.

SHE PAWNEED JEWELS TO BEAUTY DOCTOR

Los Angeles Society Woman
Will Be Witness Against
Face Destroyer.

(Special to the Republican.)
LOS ANGELES, Sept. 24.—Hundred secrets of a piquant and intimate society are expected to become a part of the evidence in the trial of Dr. H. H. Coger, head of the Earle Institute, held in \$1000 bail on a charge of practicing medicine without a license. It is expected that the trial will be a sensational one.

Coger is being sued by three of his patients who consulted him for beautification purposes, for sums aggregating over \$10,000, claimed as damages for the alleged deleterious results of his operations. A large number of witnesses will be called, among them a Pasadena woman of considerable wealth, who is admitted to have pledged her jewels to Coger for being beautiful, and later had to redeem them from a pawn shop. Coger states that he was obliged to dispose of them to reimburse himself for the cost of his treatment. He says that some of the most prominent society women in the city will take the stand and testify that their good looks are the result of his operations.

SAN FRANCISCO, Sept. 24.—Mrs. Dora Kuna, said to be wife of a Los Angeles dentist, was taken from the hotel in which she has been staying for two weeks or more to the central emergency hospital tonight. She is confined in a straight jacket as she is believed to be suffering from delirium.

According to the story given by the hospital authorities, Mrs. Kuna had some trouble with her husband and with her mother-in-law, and with her 14-year-old daughter came to San Francisco. It was said she had been worrying concerning the separation and her actions caused the hotel management to fear that she would take her own life.

INITIATIVE AND REFERENDUM TO BE ADJUDICATED

Supreme Court of United
States to Pass on
Oregon Law.

IS IT CONSTITUTIONAL?

Legislation in Many States
Depends on the
Outcome.

WASHINGTON, Sept. 24.—The initiative and referendum, probably will be the subject of a decision with far-reaching consequences by the supreme court of the United States during the approaching term. The question of the constitutionality of these expedients of government forms the basis of a suit between the State of Oregon and the Pacific States Telephone and Telegraph Company. As the case is near the head of the docket it will be reached in time to insure a decision before the end of the term.

The case originated in the company's challenge of a law enacted by the Oregon legislature under the initiative plan, by which a tax of 2 per cent was placed on the gross earnings of telephone and telegraph companies.

Taking the position that the initiative and referendum, which are enshrined in the Oregon law, are inconsistent with the Republican form of government, guaranteed by the constitution of the United States, the company refused for four years to pay the assessments.

The state thereupon brought suit. There was a decision in the trial court, but the decision was reversible. The supreme court of the state reached by the supreme court of the state, and the company, still unsatisfied, carried the case to the highest tribunal on a writ of error.

The argument in the supreme court will be made in the state by Attorney General Crawford of Oregon, Jackson H. Ralston of this city and former Representative George Ford Williams of Massachusetts, and for the company by Pillsbury & Sutor of San Francisco. Pillsbury will appear especially for the white grand jury.

Much attention is already being given to the case. As the constitutionality of the law is presented squarely, it will be incumbent on the court to deal primarily with the fundamental principles involved in a system which is coming into being in many states. It is estimated that eight or nine millions of people will be affected by the result.

In addition to Oregon, the states of Colorado, Montana, South Dakota, Missouri, Oklahoma, Arkansas, and Maine, and the prospective state of Arizona, now have constitutional provisions for the initiative and referendum, while the states of California, Washington, Nebraska and Wyoming are preparing to vote on amendments authorizing such features. Nevada has the initiative and is expected soon to add the referendum.

LEAGUE BALL PLAYERS AND TACOMA HIGH BOYS IN A STREET BATTLE

(Special to the Republican.)
TACOMA, Wash., Sept. 24.—An assault of a free fight between fifty Tacoma high school students and several members of the Portland Northwest League baseball team last night, Bill Bloomfield, star pitcher of the Rovers, has a broken arm and several members of both factions have bruises and scars.

The fight started when the students, who were doing a "make dance," celebrated Tacoma's victory over Portland at football, are said to have lined up across the sidewalk, impeding traffic. Several of the Portland players, going to their hotel from a moving picture show, did a "make dance."

Bloomfield bucked the line, but the secondary defense of the high school boys picked him up and hurled him into the street. Bloomfield struck on his wrist and broke it. The other Portland players dashed into the breach and blows were peddled right and left. The Tacoma boys were nearly all coming into play. Several combatants were painfully bruised. Reinforcements for the ball players came from a nearby athletic club and the high school boys were finally put to rout.

ATLANTA, Ga., Sept. 24.—Twenty-six persons were injured, four probably fatally here tonight when a street car, crowded with church goers, overran a switch and turned over. Witnesses said the motorman did not slow down for the curve.

ATTENDING SONG SERVICE.
In Baldwin today the President attended the inauguration ceremonies for Dr. W. N. Mason, president of the Baker University, held in the Methodist Episcopal church, and tonight he listened to a song service in the same church. In the afternoon the President spoke on peace arbitration in Baker University gymnasium.

Leaving Baldwin, late tonight, the President will reach Coffeyville, Kan., early tomorrow morning.

An interesting incident occurred tonight showing that while President Taft and Senator Brewster might differ politically they are not unfriendly. At dinner the Senator told the President that his father, a supernumerary United States minister, lived in Baldwin. After the dinner the President and the Senator drove to the house of the elder Brewster and chatted with him for more than a half hour.

HOPE ABANDONED OF FINDING MINER IN MOJAVE DESERT

SAN BERNARDINO, Sept. 24.—Searching parties seeking P. B. Washburn, a miner who is believed lost on the Mojave desert, reported tonight that no success has been had and with the report hope of his being found alive was practically abandoned. Washburn's trail has been followed twenty-five miles into the heart of the desert. His blankets, parts of his clothing, the heavier articles of his provision outfit and finally his empty canteen were picked up by the searchers. The searchers could not find him in Gorges Timber mountains, a rough section where they lost the trail at dusk. Further search will be made tomorrow.

WELCOMED BY ALL KANSANS

No Factional Lines Appear
When President Taft
Arrives in State.

BALDWIN, Kan., Sept. 24.—The warlike factions of Kansas welcomed the President today and walked side by side to pay honor to President Taft.

Governor Stubbs, who is generally conceded to belong to the insurgent faction, welcomed Taft with the hope that the state, without regard to church, party or faction, would extend the most royal reception ever given a President of the United States.

Republican State Chairman Dolley, who holds office under Governor Stubbs, and Republican National Committee Chairman, United States Senator Taft, the Kansas delegation to the next national convention would be solidly for him.

United States Senators Curtis and Brewster, the one a regular, the other a leader of the Progressives, rode side by side in the trolley of the same automobile, and the Kansas country-side and sat on the same platform to pay honor to the chief executive.

The predictions of Mulvane and Dr. Dolley, who are close to political conditions in a state supposedly insurgent, followed close on the heels of the declaration of the Kansas country-side and sat on the same platform to pay honor to the chief executive.

The predictions of Mulvane and Dr. Dolley, who are close to political conditions in a state supposedly insurgent, followed close on the heels of the declaration of the Kansas country-side and sat on the same platform to pay honor to the chief executive.

RECEIVED BY STATESMEN.
In the morning the President was shown in the President's reception by the Insurgent Republicans of Kansas City. Senator Curtis and Congressman Campbell of the Regulars met the President's train at Kansas City early in the morning, while Governor Stubbs and Senator Brewster, who are close to political conditions in a state supposedly insurgent, followed close on the heels of the declaration of the Kansas country-side and sat on the same platform to pay honor to the chief executive.

Governor Stubbs got his first real chance to say something about the President at Lawrence, where he introduced him to students.

"I want to present the President of the greatest nation in the world," said the Governor. "I hope Kansas, without regard to church or party or faction, will give the President of the United States the best reception that the state can give."

Taft attended church twice today, spoke to the students of the state university at Lawrence and to the students of Baker University here, and reviewed the Indian school at Haskell. Tomorrow the President will begin a hard, busy trip through Kansas. The first day will end in Kansas City tomorrow night, where the President speaks before the National Conservation Congress.

After the dinner the President and the Senator drove to the house of the elder Brewster and chatted with him for more than a half hour.

TWELVE IN WAGON KILLED WHEN STRUCK BY TRAIN

Five Members of Haying
Party Are Badly
Injured.

NINE ARE UNHARMED

Six of Dead Found on En-
gine Pilot—Strange
Incidents.

NEENAH, Wis., Sept. 24.—Twelve persons were instantly killed, one was so severely injured that she died later, and three were dangerously hurt when a fast Chicago and Northwestern train struck a hay rack loaded with thirty persons early today. Five other members of the party were badly hurt, and nine escaped unharmful.

The party was returning from a wedding anniversary at the farm of Peter Hanson, near here. All the victims but two lived in Neenah, Wis. Among the occupants of the hay rack who escaped were Mr. and Mrs. Joseph Brizinski, and child of two years. They were seated in the front half of the rack, the mother holding the child in her lap. About half way back on the wagon sat Mary Schwartz. The latter was hurled about fifty feet and rendered unconscious. When found by the rescuers the Brizinski child was in her arms unseated. The parents of the child were slightly hurt.

Peter Hanson, driver of the wagon, managed to hang to the reins and was the only person in the party who was not stunned by the collision. A bill board preventing gain from hearing the on rushing train until his team had reached the track. He whipped the horses, but the wagon was only half way across when the crash came.

Six of the latter were hurled through the flagman's slanty with such force as to overturn the little structure. One of these, a young woman, though hurled through a wall of the house, was alive when rescued. She died of her wounds. Another victim was thrown over a barn fifty feet from the railroad right of way.

During the last eight years nearly two dozen persons have lost their lives at the crossing where the accident today occurred.

ARCHITECT IS GIVEN \$10,000 FOR STOPPING A TROUBLESOME ECHO

(Special to the Republican.)
LOS ANGELES, Sept. 24.—By purchasing a vacant and troublesome echo to his lair in the new \$300,000 Second Church of Christ, Scientist, cladding it metaphorically to death with a mathematical formula and finally pitching it neck and heels out of Los Angeles' most ornate and costly house of worship, J. Corbly Post, architect and park commissioner of Santa Barbara, has just won a fee of \$10,000. Ever since the beautiful new church was built at Adams and Hoover streets, the poor acoustical qualities have been a source of annoyance to the worshippers. Engineers were consulted and said there was no help for it. Post was summoned, got busy with a foot rule and a formula and various sound breakers, with the result that the echo has been permanently exorcised.

It is reported that an Italian squadron, consisting of the battleships *Napoli* and *Roma*, the armored cruisers *Amalfi*, *Giuseppe Garibaldi*, *Varese* and *Francesco Ferruccio* and two destroyers, *Scirocco* and *Torpediniere*, will sail for Tripoli tonight for Tripoli.

The warships carried no troops and it is understood will confine their action for the present to watching the coast. They will interfere only in the event of an outbreak on the part of the subject of Tripoli.

No official confirmation of this can be obtained. There is the censorship of newspapers here, which are threatened with dire penalties if they publish anything concerning the national and military movements.

POSITION OF OTHER POWERS.
PARIS, Sept. 24.—While the Franco-German agreement on Morocco cannot be regarded as definitely an accomplished fact until it is known how Herr Von Kiderlen-Waechter, the German minister of foreign affairs, receives the newly revised French text, no doubt is entertained that the first part of the negotiations will be ended quickly by a complete understanding.

The second part of the negotiations, which concerns the Congo, will be commenced shortly. During the progress of the negotiations, France and Germany will take all necessary steps to secure the adhesion of the powers in the new situation.

This task is not likely to present special difficulties, except in the case of Spain.

In a published interview, the Turkish charge d'affaires at Paris declares that he has no knowledge of the negotiations being opened by Italy and the subject of Tripoli.

"If Italy has any desire to take Tripoli from us," said the charge, "we will defend ourselves, and our defense will be desperate. The whole population will rise as one man. If Italy lands troops in Tripoli she will find it something more than a military problem. We will immediately call in all Italian subjects and denounce the treaties."

NAVAL FORCE READY.
Recent advices from Rome said the entire Italian naval force is ready in case of emergency for a conflict with Turkey if the Ottoman government refuses to give its consent to an Italian protectorate over Tripoli. Premier Giolitti some days ago, after a conference with the ministers of war and marine, declared that if the Turkish government were not ready to recognize Italian influence over Tripoli in some form of protectorate, the only recourse must be the military occupation of that Turkish province.

The Italian plan embraced a bombardment of the city and simultaneous military expedition of 20,000 soldiers to block the Turkish coast along the Adriatic sea and to operate in Macedonia, Syria and Arabia. The Italian squadrons removed to the harbor of Tripoli and the Italian government were not ready to recognize Italian influence over Tripoli in some form of protectorate, the only recourse must be the military occupation of that Turkish province.

LANDS ON TRIPOLI COAST

Reported Seizure by Tur-
key of an Italian
Vessel.

BLOCKADE PLANNED

Roman Government De-
mands Lease of Province
Under Turkish Rule.

PARIS, Sept. 24.—A dispatch to the Temps from Rome gives unconfirmed rumors that Italian forces have landed at three points on the coast of Tripoli.

PORT SAID, Sept. 24.—It is reported that the Turks have captured the Italian liner *Regina Margherita* at Messina. This steamer is one of the Italian fleet of the Navigazione Generale Italiana.

CONSTANTINOPLE, Sept. 24.—Rumors that the Italian troops have disembarked in Tripoli cause alarm here. The Italian liner *Romana* bound from Constantinople on arrival in the Dardanelles early Saturday morning was boarded by the Italian vice consul who ordered the captain to land his passengers within a half hour. The *Romana* sailed for Italy without landing its mails.

It is reported that several Italian merchant steamers have departed from Turkish ports without disembarking their cargoes.

The Italian government is moving rapidly and with determination in the matter of an Italian protectorate over Tripoli. Its plans no longer are concealed and its attitude is favored by all classes except the advanced socialists, who threatened to call a general strike in the event of hostilities.

Although the Italian government has decided to call to the colors 112,000 reservists so as to be prepared for all emergencies both at home and abroad.

According to the information in official circles, the government still hopes to effect an amicable arrangement with Turkey whereby Italy will secure a lease of Tripoli under the sovereignty of Turkey, paying therefor an annual rental. If Turkey deliberately refuses to meet this proposal, Italy will proceed with military measures.

The government is prepared to meet any aggressive measures on the part of Turkey, such as attacks upon the lives and property of Italian subjects in Turkey, in which case it is understood a naval demonstration will be made.

It is reported that an Italian squadron, consisting of the battleships *Napoli* and *Roma*, the armored cruisers *Amalfi*, *Giuseppe Garibaldi*, *Varese* and *Francesco Ferruccio* and two destroyers, *Scirocco* and *Torpediniere*, will sail for Tripoli tonight for Tripoli.

The warships carried no troops and it is understood will confine their action for the present to watching the coast. They will interfere only in the event of an outbreak on the part of the subject of Tripoli.

No official confirmation of this can be obtained. There is the censorship of newspapers here, which are threatened with dire penalties if they publish anything concerning the national and military movements.

POSITION OF OTHER POWERS.
PARIS, Sept. 24.—While the Franco-German agreement on Morocco cannot be regarded as definitely an accomplished fact until it is known how Herr Von Kiderlen-Waechter, the German minister of foreign affairs, receives the newly revised French text, no doubt is entertained that the first part of the negotiations will be ended quickly by a complete understanding.

The second part of the negotiations, which concerns the Congo, will be commenced shortly. During the progress of the negotiations, France and Germany will take all necessary steps to secure the adhesion of the powers in the new situation.

This task is not likely to present special difficulties, except in the case of Spain.

In a published interview, the Turkish charge d'affaires at Paris declares that he has no knowledge of the negotiations being opened by Italy and the subject of Tripoli.

"If Italy has any desire to take Tripoli from us," said the charge, "we will defend ourselves, and our defense will be desperate. The whole population will rise as one man. If Italy lands troops in Tripoli she will find it something more than a military problem. We will immediately call in all Italian subjects and denounce the treaties."

California Oil News

PROFITABLE PERIOD IS NOW APPROACHING

Cessation of Frenzied Land Grabbing Believed To Be Near.

Unless unforeseen conditions arise the oil producers of California are approaching the more profitable period of the industry, in the opinion of a number of men heavily interested in the business, says the Los Angeles Tribune. The cessation of frenzied grabbing of oil lands and hurried development of them for purely speculative purposes and the prospect of an adequate storage system being established soon has caused most of the conservative oil men to look on the future of the business with optimism.

The greater part of the overproduction of oil in the last two years has been the result of hurriedly incorporated companies securing a bit of acreage where a well was sunk with corresponding haste. If a well on such ground was developed the promoters were often in no position to handle the production, and the responsibility of taking care of the oversupply has rested mainly on the

shoulders of the established companies. Promiscuous buying of oil promotion stock has decreased very materially in the last few months and most of the money that is being put into the oil business at this time is invested after a careful investigation on the part of the purchaser.

Such companies as the Union Associated and even the Standard have resisted many small companies that round themselves up to cope with their own production in order that the industry as a whole might not suffer by the mismanagement of inexperienced operators. While this overproduction has caused many old hands in the business to fear that a crisis might be precipitated at any time, it has worked to an advantage in the long run by proving to the prospective large consumers of oil that the California fields have natural resources that cannot be questioned in the future. It is believed that this single fact will result in many large contracts in the next few months.

DEPOSIT OF OIL OFF LONG BEACH

LOS ANGELES, Sept. 24.—Frequent appearances along the Long Beach shore of vast quantities of oil, in too great amount to have come from the huge oil reservoirs, were brought into prominence recently by the discovery that huge masses of sea weed washed ashore during the night, and roots covered with crude oil. As the roots generally float downward, it is not thought that the oil was obtained on the surface.

Robert A. Hewitt, an oil man of Los Angeles, who examined the kelp with interest, expressed the opinion that somewhere out in the Catalina channel there was a big oil deposit and that the frequent visitations of oil along shore came from some well on the ocean bottom. After every high tide, this oil invariably follows. It is known that in a cove at Santa Barbara there is an area of ocean always covered with more or less crude oil, indicating a subterranean deposit.

TEXAS OIL BEING SHIPPED TO CHINA

Reports from Amoy state that Texas oil is now entering the China market. On July 11, 1911, a British firm of that city received its first consignment of kerosene oil. It has now entered the local market as a competitor of the Standard Oil Company, and the Asiatic Petroleum Company, both of these companies having been established in Amoy with expensive installations for more than five years.

The present consignment is 28,500 cases of oil, the entire shipment being in this. The intention is to continue the sale of this oil under these conditions, until the sales increase sufficiently to warrant an installation. The oil has been supplied by the Texas Oil Company, and was shipped from Port Arthur, Texas, to Amoy via the German ship Asgard. Before discharging this cargo, this ship left about 50,000 cases at Manila and Hongkong.

"MISS NOBODY FROM STARLAND" AT BARTON WEDNESDAY

An Absorbing Frolic of
Melody, Mirth and
Music.

Bertie Beaumont, who will be seen in the clever musical revue.

One of the best as well as one of the most notable musical comedy successes sent out of the Princess Theater, Chicago, by that indefatigable producer, Mort H. Singer, is "Miss Nobody from Starland," which will be the attraction of the Barton next Wednesday evening, Sept. 27. There are some big scenes in this musical comedy—big even for a Singer production. The very first scene showing the deck of the great trans-Atlantic liner Lusitania, is spectacularly effective, and the novel dress rehearsal scene, in which the audience is literally taken behind the scenes during the final preparations for the staging of a musical comedy, is a feature which has taken theatergoers by storm.

Among the many song hits introduced in this popular frolic, Adams, Howard and Mitchell vehicle are "My Gingham Man," "I'd Rather Love What I Cannot Have Than Have What I Cannot Love," "It Must Be Grand to Be a General," "But I'd Rather Lead the Band," "I Am a Far, Particular," "Ah, Marjorie," "Till Tomorrow," "Every Girl I Love is Someone's Wife," and "I'm in Love with Love." "Miss Nobody from Starland" is one of the biggest musical productions on tour this season, and its scenic equipment is unusually elaborate.

The seat sale for "Miss Nobody from Starland" will open this morning at nine o'clock.

MONTE CRISTO MAKES RETRENCHMENT ORDER

Maricopa Properties Are Affected By Cutting of Expense.

BAKERSFIELD, Sept. 24.—The Monte Cristo Oil and Development Company, one of the most extensive oil operators in Kern county, is said to be undergoing retrenchment insofar as its Maricopa properties are concerned. Superintendent Alexander Laout, of his own volition, and will be succeeded October 1st by St. Chinet, the company's utility man. The big boarding house has been leased though it is said Henry Ach, the head of the company had to assure the lessee there would be ten men for meals every day.

Under the plans of retrenchment announced, the drillers are to be relegated to tool dressers and receive tool dressers pay. A number of tool dressers are to be let out.

State controller's receipt has been issued to the Esperanza Consolidated Oil Company, assessed to J. B. Dabney for 400 acres in sections 13, 21-22 and 19, 31-23.

Charles G. Wilcox has assigned his agreement to the H. H. Oil Company from W. J. Schultz of Maricopa, option

to purchase the west half of the north-east quarter of section 22, 32-24. R. L. Peeler has granted the Associated Oil Company right of way over the south half of section 26, 27-28; John Barnason to Associated right of way over section 34, 27-28; and Rosario Oil Company to Associated over north half of section 8, 27-21.

BRIEF OIL NOTES FROM BAKERSFIELD

BAKERSFIELD, Sept. 24.—The U. S. Oil and Mining Company, operating on section 6, 20-22 on the North McKittrick front is down about 300 feet with the 12-14 inch casing. Drilling is proceeding with smoothness and the company hopes to bring in a good well in the near future.

R. E. Hagg and Charles A. Barnard have filed affidavits in the case of M. P. Welte against the Eldora Oil Company, setting forth that the affidavit of H. U. Harroun, a driller, given in behalf of the plaintiff, was not due to his being coerced. Harroun made affidavit that the Maricopa Queen had discovered oil on the southeast quarter of section 32, 12-22.

The suits of H. B. Rust against the Teuplor Planet Oil Company, and C. A. Son against the Midway Southern Oil Company, have been dismissed, being settled out of court.

Running up and down stairs, sweeping and bending over making beds will not make a woman healthy or beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

M. A. C. Guaranteed to cure sour stomach, gas and heartburn or money back, only at Smith Bros.

House of comfort, Hotel Marx, the popular headquarters for residents while in San Francisco.

CONVINCED THE MAINE EXPLODED FROM OUTSIDE

Pumping Out of Cofferdam Produces Confirmatory Evidence.

HAVANA, Sept. 24.—The Maine was destroyed by an external explosion.

There no longer remains any doubt as to the manner in which the United States battleship was sunk in this harbor on the night of February 15th, 1898.

The cofferdam about the wreck has been pumped out and the mud cleared away to a greater extent than ever before. The clearing away of the wreckage reveals the double bottom of the ship with part of the keel standing in perpendicular position, some twenty-eight feet higher than the natural position.

This perfectly confirms the report and testimony which Ensign Fowler gave before the investigating board after the disaster and which was based upon reports made to him by divers just after the explosion.

It is the confirmed belief that such a tearing of the ship's bottom could not have been produced by an interior explosion. It is further said that no regulation military mine could have wrought such terrible havoc. It must have been a huge mine, as Captain Sigbee and others suggested at the time; perhaps a sugar mill boiler or a large tank loaded with explosives.

TALLY TAGS AND TIME CARDS For fruit pickers and packers carried in stock at the Fresno Republican

CLEARANCE SALE of REFRIGERATORS

Here's opportunity for Refrigerator
buying that will not be offered
you again

And the Refrigerators offered are the sort that will give you real Refrigerator satisfaction.

They are here—they occupy space we need, and need badly—need it so badly that profitless prices have been placed upon every Refrigerator remaining in the house.

They must go and go quickly and these prices certainly ought to accomplish, appealing to you as they do, all that we desire to accomplish.

Are you not coming today to secure yours?

All we want is 10 per cent above cost.

Fresno Hardware Co.

ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach,
Coated Tongue or Constipated
Bowels by Morning.

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels. Then you will feel great. A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head and cheerfulness for months. Children love to take Cascarets because they taste good—never gripe or sicken.

Defective Eyes Cause Headaches

When you go home at night with a headache, it is more than likely that your eyes are the cause of it. That is easily remedied. Let me give your eyes a thorough and scientific examination and prescribe the glasses that will give you relief. Do not delay until it is too late.

Fashion Show

ON Thursday the big Fashion Show begins. Interest has been spreading all the time, and every merchant participating in the show is making every endeavor to make the most attractive and unique exhibit. Every idea of window dressing and up-to-date displaying of wearing apparel will be utilized in ways that will prove a revelation in modern merchandising.

There will be special trains and special rates. Great publicity has been given to Fresno's First Fashion Show and there will be visitors from every part of the San Joaquin Valley. It will be one of the greatest exhibits of fashions ever held on the Coast, and something entirely new in Fresno.

**Thursday, Friday and Saturday
Sept. 28, 29 and 30**

LUARES IS HEAVY BURDEN TO MADERO

De La Barra May Yet Be Elected Vice President.

MEXICO CITY, Sept. 24.—Since the withdrawal of Bernardo Reyes from the Presidential election Sunday, October 1st, interest now centers in the election of the vice president. The election of Francisco I. Madero for the presidency is a foregone conclusion, although there are no points where the contest is being contested.

Francisco De La Barra, provisional President, despite his refusal, in a plea to his readers today, El Diario again insisted that the only solution of the nation is the retention of De La Barra in office.

What is worrying Madero and his immediate supporters, however, is the vice-presidential question. Jose Pino Suarez is the official candidate on the Madero ticket, but the popular backing of Suarez's following appears to be growing no less, while De La Barra stands in the background as the candidate of the Catholic party.

Popularly, the race is supposed to be between Suarez and Pino Suarez, and no newspaper of the capital expressed fear of De La Barra's election, but it became known today that the Maderista headquarters are more seriously alarmed over his chances than over those of Suarez.

One politician in the councils of Madero expressed his belief that De La Barra would be named vice president, but not as the result of the popular vote next Sunday.

DEPUTIES MAY ELECT
Under the law, the majority vote of the electoral college is necessary to elect. Failing in this, the choice is made by the Chamber of Deputies. Since there are three candidates in the field, one of whom has the personal backing of Madero, one with the popular backing of the insurgent element of the revolutionary party and the third that of the Catholic party whose potency generally is admitted, it is almost certain that none will receive the necessary 51 per cent of votes.

The Chamber of Deputies can be counted upon with reasonable certainty to name De La Barra, as a big majority of that body is anti-Madero.

Early in the campaign De La Barra refused to accept the nomination for President, but at no time has he declined the nomination for vice president. It will be no surprise if during the next seven days Madero or his supporters appeal to the provisional President to renounce his candidacy. If he succeeds, the race will be between Suarez, Pino Suarez and one or two others.

Close friends of Madero do not deny the ability of De La Barra nor his fitness for the position. In fact their

PARIS HOSPITAL TREATS BRIGHT'S

Physicians and patients who still believe Bright's Disease incurable will be interested in the fact that a large New York Hospital House runs in an order for \$150.00 worth of Bright's Compound for a Paris hospital.

Check was received last week, with the statement that the shipment was a little slow, and request was made for a duplicate to be prepared and housed in New York ready for quicker delivery.

Another important order was from a physician of the IMPERIAL ARMY MEDICAL COLLEGE OF CANTON, CHINA. He wrote that the Bright's Compound was a necessity in the treatment of Bright's Disease.

We offer above letters to physicians who care to see them.

The knowledge that Chronic Bright's Disease is being cured is spreading around the world.

Booklet mailed free. Address John J. Fulton Company, 645 Battery Street, San Francisco. Patterson Block Pharmacy, agents.

VERIFY IT

The Proof is in Fresno, Almost at Your Door.

The public statement of a Fresno citizen is in itself strong proof for Fresno people, but confirmation strengthens the evidence.

Here is a Fresno citizen who testified years ago that Doan's Kidney Pills relieved sick kidneys, and now states the cure was permanent. Can any sufferer from kidney ills ask better proof? You can investigate. The case is right at home.

Mrs. L. A. Austen, 51 G street, Fresno, Calif., says: "The cure Doan's Kidney Pills effected in my case some years ago has been permanent. I suffered intensely from kidney trouble and a weak and painful back. The kidney secretions were also unnatural and showed that my kidneys were at fault. When about in despair from not finding relief, I was persuaded to try Doan's Kidney Pills, procured at the Barker & Colson Drug Co. They soon rid me of the trouble and improved my condition in every way. I shall always recommend Doan's Kidney Pills in return for the permanent cure they gave me."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Belmonters to Meet and Discuss Plans

Called to Get Together at Kroeger School on Thursday.

Residents on Belmont Avenue between Northampton and Palm Avenues are called to meet at the Kroeger school house Thursday evening to discuss the various plans of improvement of the street which have been advanced either privately or before the city trustees. H. G. Persons and others are interested in the making of the street for the purpose of grading, curbing with railroad or concrete, single or double car tracks or none at all, and a number of plans that have been recently talked over.

The matter of improvement of Belmont was allowed to go over at the last meeting of the city trustees, Monday night, a week ago.

WICKERSHAM CLAIMS SOME MISQUOTATIONS
But Reiterates That Government is Determined to Enforce Trust Law.

BRETTON WOODS, N. H., Sept. 24.—Replying to many inquiries concerning the authenticity of a reported interview with its correspondent published in a leading New York newspaper, Attorney General Wickersham today evening made the following statement:

"The purported interview is a summary of two conversations which I neither understood nor intended to be published. Circumstances unnecessary to state here led me to express myself in a very casual manner. The subjects discussed then I would have done for publication. The report contains some inaccuracies. For instance, I did not state that the United States Steel Corporation was a combination in violation of the law; nor did I state that men under its control in the best trust cases in Chicago would go to prison if I had my way. There are also other inaccuracies. In the main, however, the reported interview with substantial correctness represents the views expressed by me in the conversations referred to."

"The president has stated that the supreme court has decided what the law is, and now business has got to square itself with that law. It is not the intention of the department of justice to bring indiscriminate prosecution against men who are engaged in a business which is its interest to protect to criminal proceedings, except where evidence at its disposal indicates willful and deliberate violation of the law and suppression of competitive conditions by oppression and unfair or other illegal methods."

"It is hoped that monopolistic combinations which are in illegal restraint of interstate trade and commerce, will voluntarily reorganize and establish competitive conditions without awaiting prosecution. The government would very much prefer such voluntary action to the necessity of legal prosecution."

"The department of justice is prepared to give careful consideration to plans for such reorganization submitted in good faith, and, if found satisfactory, to submit them to the court on appropriate petitions to the end that a proper decree be entered making the plan binding on the defendants and enjoining any renewed combination restraining trade between the newly separated members of the combinations."

TRICKED FIRE ENGINE HORSES.
They played an ungentlemanly trick on Sid, Elmer, Jeff, Bayonne, Tony and Fog in engine 26's house on Lafayette street just above Spring. The song changed at 2 o'clock and but tricked these six fire fighters and ranged themselves in front of the two horse-drawn hose carts. Their harness slipped into place and out they sailed.

But when they started up and got into their strides the drivers showed them down beside the curb. And as they looked back over their shoulders they saw two brand-new automobile hose carts rolling into their house. And inside Wonder and Brookhaven, the searchlight engine-pullers, snarled.—From New York Sun.

WEARS DEAD MAN'S LEG
At Least One Bone of It Has Been Successfully Grafted to Her Limb.

Happy in the belief that she soon will be able to return to her Brooklyn home, Mrs. Katherine Mary Neary, who had a "foreign" bone inserted in her left leg, is resting comfortably in the Hospital for Deformities and Joint Diseases, at Madison avenue and 128th street. She says that she is feeling well and that the "foreign" bone seems at home. This is also the belief of Dr. Henry W. Frauenthal, who on July 12 removed much of the bone from the left leg of the patient, replacing it with a bone from the leg of a healthy man who had been killed in an accident.

Mrs. Neary is 35 years old. From her fourteenth year she had suffered from necrosis of the tibia of her left leg. She was able to move about and to do her work as housekeeper until June, when her condition became such that the Barrett family physician advised her removal to the Manhattan hospital.

Dr. Frauenthal, finding that necrosis had developed to such an extent as to require an immediate operation, decided to perform it, and as soon as he was able to get a healthy tibia in the manner described, this was done. He wondered at the time whether or not the grafted bone would be maintained or be absorbed gradually by a growth of new bone.

"In either case," he said, "I believe that the patient's leg will be restored to complete usefulness and I think that she will be able to walk in a few days. The bone has healed and the new bone has established itself, there will be nothing in her walk to show the effects of the unusual operation. I expect she will be able to walk within a month."—New York Tribune.

ARMY OF CRABS TIES UP TRAFFIC
An army of soft shell crabs held up a lot of trolley cars, disarranged the Pennsylvania railroad ferry service, collected a crowd of 3000 persons, and made busy times for a lot of policemen when the tide of travel to New York was at its height. The crabs began to appear in exchange plus the thousands that ended against the ferryhouse and soon the street was full of 700 of them, which had escaped from barrels in the Adams Express company's office.

Men and boys trying to catch the crabs stood in the way of trolley cars and stopped them. "Twenty girls and others the fair sex screamed and shrieked and begged to be rescued from the crabs. The rest of the crowd of 3000 people, who were gathered about the crabs, were kept from the street by City dispatch to Philadelphia Record.

FOOLISH AJAX.
Ajax had just defied the lightning. "Ajax, you old fool!" came a feminine voice. "Don't you know enough to come in out of the wet?" Whereupon he meekly obeyed as a well-trained husband should.

NEW RECTOR IS TO ARRIVE WEDNESDAY
Rev. W. R. Thomas of Memphis, Tenn., who is to succeed Rev. Harvey Hanson as rector of St. James' Episcopal church, is expected to arrive in Fresno Wednesday night. He will immediately assume his duties at the head of the local church.

Rev. Ernest Bruckner of Kentucky, who is to succeed Rev. Hanson as rector of St. James' church on the second consecutive time yesterday and in the morning preached a splendid sermon on the work of man, both in business and religious life. It is expected that Rev. Hanson will occupy the pulpit the first time next Sunday morning.

AVIATOR FRANK BRYANT FLIES OVER PRESIDIO
SAN FRANCISCO, Sept. 24.—Frank Bryant, a local aviator, who is working in connection with the signal corps at the Presidio military reservation, made a flight today from the Presidio grounds over Port Mason and the site of a portion of the Panama-Pacific exposition grounds. His flight was believed to have demonstrated the feasibility of the location for aerial maneuvers, despite the fact that reports about the entrance to San Francisco bay.

IS ARRESTED FOR INSULTING WOMAN
Because he is alleged to have insulted a woman at 6 o'clock yesterday morning, J. A. Antrane was arrested by Sergeant Cogle and Patrolman McKee on a charge of drunkenness. A report was made to police headquarters shortly before 6 o'clock that a drunken man was raising a general disturbance in front of a livery stable. The police officers rushed to the place and took Antrane in charge. It was then learned that the man had made insulting remarks to women who happened to pass by the livery barn in the early hours of the morning.

MOSQUITOES IMPERIL LIFE
Boy, Stripped of Clothing, Almost Slung to Death as He Lies in Meadow.

Francis Tremont, 15 years old, of Pleasantville, N. J., was almost killed by mosquitoes on the meadows near Point Breese last night, after being stripped and tied there by two unknown men, who attacked him.

He says he went out for a walk after dark and was suddenly attacked by the assailants and was severely beaten. They overcame him, took off his clothes, and binding him with ropes, threw him in the grass and left him.

Mosquitoes immediately attacked him by the thousands, and he suffered most intense torture before he became unconscious. He lay for two hours before he was discovered by George Andrews, a soldier, and sent home in a wagon. When found his body was completely covered with the insects. A physician summoned says that his condition is serious, and that had he been exposed to the stings of the myriads of mosquitoes for another hour he would undoubtedly have died.

He was able to give a meager description of the men who attacked him, and the police are searching for them.

South Philadelphia was visited by tremendous swarms of mosquitoes, which invaded the streets, the homes, the churches, the cigar stores, soda fountains and every place where people can be found on Sunday night, and made life miserable for all of the downtown residents.

So numerous were the swarms and each was composed of so many thousands of mosquitoes that the oldest citizens claim that even the record of South Philadelphia has been broken. Every possible means of combating the enemy was adopted and thousands were killed, but relief seemed to be impossible. Before 10 o'clock it was found impossible to buy a stick of incense, or a candle, or a mosquito net, and campfires, citronella, and other smothering applications were at a premium in all of the drug stores.

The fight at midnight showed no signs of abatement.—Philadelphia Public Ledger.

SHOWS CONCENTRATION OF TOBACCO CAPITAL
Federal Report Explains Enormous Earnings of Condemned Trust.

WASHINGTON, Sept. 24.—The intricate financial side of the American Tobacco company, familiarly known as the tobacco trust, which now is in process of dissolution by order of the Supreme Court of the United States because it was a combination in restraint of trade in violation of the Sherman anti-trust law, was set forth in a report of the commissioner of corporations, Herbert Knox Smith, which was sent to the President and made public today.

It was the second part of a report on the tobacco industry and deals with the earnings, capitalization, and investment of the great tobacco combination.

The commissioner says that the vast earning power which arose from the substantial control of the tobacco industry as a monopoly resulted from concentration of the capitalization of this monopoly. The power was much greater than the actual investment and by clever arrangement the bulk of the earnings were concentrated in the hands of a small group of individuals.

The enormous profits resulting from the tobacco industry and the dividends paid thereon, the report concludes, rested in their ultimate analysis upon the monopolistic advantages obtained in the tobacco industry through concentration of control.

Kings County FAIR
HANFORD, CAL., SEPT. 25TH TO 30TH, INCL., 1911.
Has already proven itself to be the largest and most attractive display of stock and racing ever held in the county. Already entered two weeks before the opening for premium show, 50 stallions, 50 mares and colts, 200 head of cattle, the biggest herd of prize winning hogs on the Pacific Coast, and other animals too numerous to mention.

Special Events
Over \$6000.00 in harness race purses
The largest stock parade that was ever held in the San Joaquin Valley, Tuesday morning. Tuesday afternoon two harness races, one with 11 entries, the other with 13. Good races every day with special events between races.

A FUEL-SAVING HEATER
The "Progressive" Warm Air Heater gives a maximum of heat for a minimum of fuel. It has an enormous number of square inches of heating surfaces which take all the heat which usually goes with the smoke. It has a patented device for removing ashes quickly. The stove is highly ornamental and the heat can be regulated in the most perfect manner. There are thousands of them in use and all give perfect satisfaction.

Special Officer E. H. of the Southern Pacific last night arrested John Clippel, H. Burns and Elmer Price for evading the payment of railroad fare.

William Smith, aged 17, who says that he is a full-blooded Indian, was taken to the hospital of the O. & N. by night by Patrolman Dikens and charged with vagrancy at the county jail.

Six men were arrested early Sunday morning in a raid on a hay stack west of town. They gave names at the jail as: A. H. Williams, Walter Sutter, H. E. Smith, Dave Leisner, George Turner and Henry Brooks. Patrolman Maher and Clippel made the arrests.

Patrolman Maher and Clippel early this morning seized a stack of hay from the Southern Pacific railroad tracks and arrested seven men for vagrancy. The men arrested were: Robert Shannon, M. Shannon, Charles Brown, Frank Murray, Jack Lamson, John H. Carey and William Hess.

Eliza Tuzare was brought to the county jail yesterday by an officer from Lemoore to serve a 30-day sentence for simple assault. The assault took place several weeks ago at Lemoore. A Mexican was very badly injured and for some time was confined at the county jail hovering between life and death. He finally recovered and the trial was held at Lemoore Saturday.

James Dolb, a barber, and Miss Corinne Lawport were arrested early yesterday morning in the residential district on a special charge of the vagrancy law. They were lodged in jail and will probably be arraigned in the police court this morning at the regular police session. The arrest was made by Police Sergeant Coyne and a squad of police officers.

K. P. Knight, a box maker, was arrested in Fresno yesterday afternoon by Constable T. D. Sarge of Earlier on a forgery charge. Knight was taken back to Earlier. The Earlier constable came to Fresno yesterday morning and notified the local peace officers to be on the lookout for Knight. Sarge then walked up J street and accidentally ran into the man he had been searching for.

TRUSTEES OF CHRISTIAN CHURCH TO RESIGN IN ONE BODY

Members Favoring Miller Left Board Some Time Ago.

Meeting To Be Held Tuesday, Resignations Ready Next Sunday.

With the removal of Rev. Ray O. Miller of the First Christian church from Fresno comes the announcement that on Tuesday night, the remaining members of the board of trustees of the church will meet in regular session and pass a resolution to tender their resignations at the regular church services next Sunday morning. At that time, it is probable a new board will be chosen.

The board of trustees of the church has been disrupted for some time as the result of the controversy waged over the resignation of Rev. Ray O. Miller as pastor. As the organization now stands, there is not a full membership, for those who favored Miller resigned some time ago, giving as reasons their failure to accomplish anything because of the attitude of the faction opposed to Miller's doctrines.

It was stated yesterday that these people have themselves admitted that they have not accomplished anything and for this reason they are to hand in their resignations. A. D. McAlpine is chairman of the board and was one of the opponents of Miller.

The faction in the church which favored the retention of Rev. Miller was termed the progressive faction, while the others were termed reactionaries. Some time ago, a test vote was taken at a regular service of the church as to Miller's retention and those desiring to have him remain as pastor won out by an overwhelming majority. From the attitude of the church members, it is believed a "progressive" board will be chosen next Sunday.

Rev. Miller preached his farewell sermon yesterday but made no reference to his leaving. "If a man forces you to go with him a mile, accompany him twice," was the text taken for the sermon. In the course of his remarks, Rev. Miller said that those who obey only half religious rules only to sanctify themselves are those who travel only the first mile. The ones who go the second mile, he said, are those who are anxious to do good to others in this life. The second mile, he asserted, is the hardest mile for any man to travel.

A reception will be tendered Mr. and Mrs. Miller tonight at the home of H. H. Brix and it is expected that there will be a large attendance. Rev. Miller has not made public where he will go from Fresno but has intimated that he will not leave the San Joaquin valley. There are several Christian churches in the valley without pastors at the present time.

It will probably be a month before a pastor is chosen for the Fresno church.

LOCAL BREVITIES

Holland's "Deli" Coffee, 3 lbs. for \$1.00. Try it.

Ask for Danish Creamery butter. Jersey Farm Dairy Co. Main 244.

Fruit tickets at Republican office.

Dr. Aton, dentist, Republican Bldg.

D. T. Wingo, lawyer, Forsyth Bldg.

C. K. Kirby, architect, Forsyth Bldg.

Dr. Phillips, dentist, Land Co. Bldg.

Cockrell & Duff, dentists, Patterson Bldg.

Dr. Hines has returned from his vacation.

Jack Kallish was arrested last night by Patrolman Dikens for vagrancy.

Dr. J. L. Martin, physician and surgeon, Office J and Fresno, phone 531.

Merchants' lunch served at Eagle Cafe, open till midnight, 1121 J street.

For rent: A single office and a splendid suite of offices in Forsyth Building, 200 Noble Bldg., Co. Room 116.

A rummage sale will be held at 2023 Fresno street between J and K by the ladies of the St. John's church, beginning Tuesday, September 24.

Special Officer E. H. of the Southern Pacific last night arrested John Clippel, H. Burns and Elmer Price for evading the payment of railroad fare.

William Smith, aged 17, who says that he is a full-blooded Indian, was taken to the hospital of the O. & N. by night by Patrolman Dikens and charged with vagrancy at the county jail.

Six men were arrested early Sunday morning in a raid on a hay stack west of town. They gave names at the jail as: A. H. Williams, Walter Sutter, H. E. Smith, Dave Leisner, George Turner and Henry Brooks. Patrolman Maher and Clippel made the arrests.

Patrolman Maher and Clippel early this morning seized a stack of hay from the Southern Pacific railroad tracks and arrested seven men for vagrancy. The men arrested were: Robert Shannon, M. Shannon, Charles Brown, Frank Murray, Jack Lamson, John H. Carey and William Hess.

Eliza Tuzare was brought to the county jail yesterday by an officer from Lemoore to serve a 30-day sentence for simple assault. The assault took place several weeks ago at Lemoore. A Mexican was very badly injured and for some time was confined at the county jail hovering between life and death. He finally recovered and the trial was held at Lemoore Saturday.

James Dolb, a barber, and Miss Corinne Lawport were arrested early yesterday morning in the residential district on a special charge of the vagrancy law. They were lodged in jail and will probably be arraigned in the police court this morning at the regular police session. The arrest was made by Police Sergeant Coyne and a squad of police officers.

K. P. Knight, a box maker, was arrested in Fresno yesterday afternoon by Constable T. D. Sarge of Earlier on a forgery charge. Knight was taken back to Earlier. The Earlier constable came to Fresno yesterday morning and notified the local peace officers to be on the lookout for Knight. Sarge then walked up J street and accidentally ran into the man he had been searching for.

TWO ARRESTS MADE IN GAMBLING RAID

Dick Marshall was arrested yesterday afternoon by Patrolman Davis and cited to appear in the police court this morning to answer to a charge of keeping a gambling house. An Lee, a Chinaman, was cited to appear in court at the same time for conducting a gambling house. The arrests were made by Patrolman Davis after he had to kick down a barred door before he could gain entrance to the alleged gambling house. The police officers standing across the street and noticed several white men (leaving the Chinese store and disappearing through a rear door. Davis tried to get into the room but the door was slammed shut in his face. He then kicked it in, but in the meantime the inmates escaped through a back door and Marshall and the Chinese were the only ones apprehended.

SECRETARY SPRINGER ADDRESSES BIG CROWD

Special Music is Rendered at Young Men's Meeting.

A large gathering of men yesterday afternoon was present at the Young Men's Christian Association meeting and heard an interesting address which was delivered by J. E. Springer, state secretary of the association. The meeting yesterday afternoon was the first of a series of Sunday afternoon meetings which has been held under the auspices of the Y. M. C. A. since the hot weather began and the officials were well pleased with the large turnout.

Special music was rendered before the speaker by Springer, Miss Anna De Young and a quartet. A violin solo by Raymond DeYoung gave a violin solo. Secretary Springer chose for his subject "The Ghost of an Opportunity." He illustrated by using the character of King Saul and his extravagance with Samuel and his refusal to use his opportunity of making good as king of Israel. Referring to the counsel of his old friend Samuel, "King Saul, when he had become estranged," said the speaker, "and when he needed counsel, went to Samuel but his friend was dead to him and King Samuel had to lead him to the which of Eder, asking him to lead him to Samuel, but only the ghost of Samuel appeared."

The theme emphasized was the fundamental law of "use or lose" as demonstrated in the physical, mental, moral and spiritual life. The speaker said that those who persistently refuse to use the opportunities of this life become dead and the speaker said that he cannot grasp fortune when it knocks at his door.

WELL KNOWN FRESNO COUPLE IS MARRIED

Albert E. Taylor, an employee of the Santa Fe railroad, and Miss Alma H. Sammons, a well known Fresno girl, were married yesterday afternoon by Rev. Duncan Wallace at the Calvary Presbyterian manse. The wedding ceremony was witnessed by about fifteen friends of the bride and groom. Immediately following the wedding, the bride and groom, accompanied by their friends, went to the home of the groom's parents in Walters colony where a dinner was served. The groom is the third member of the Taylor family that Rev. Wallace has united in wedlock.

HAVE CONGESTION IN LINDSAY YARDS

LINDSAY, Sept. 24.—Difficulty in having the freight in and out of this city is expected when the orange season is well under way, as the heaviest of the traffic season is not here yet, and already there is some inconvenience experienced because of large arrivals in the Southern Pacific yards. It is expected that the orange season this year will be 19 per cent heavier than that of last.

LINDSAY HI NAMES STUDENT OFFICERS

LINDSAY, Sept. 24.—Officers of the year have been elected by the student body of the Lindsay high school, as follows: Jay Reed, president; Miss Gladys Rea, vice president; Miss May Turner, secretary. Separate glee clubs have been organized by boys and girls of the school. They will co-operate in some productions this winter that promise to be good. The boys are directed by Nathan Shuit and the girls by Miss Noyes.

SONOMA GROWERS HELP WINE FUND

Dispatches from Santa Rosa, Cal., state that interest among wine grape growers is being taken in the campaign of California, which is levying so much per ton on grapes delivered to wineries and grapes crushed, for the purpose of raising a fund to finance a campaign for amendment through in the Wylie local option vote. The amendment is to provide for the selling of "table" licenses in "dry" territory. With the statement on the wine is carried a list of sixty-one names of people of good firms who have signed up to pay their pro rate on grapes grown or handled.

NEW POLICEMAN IS ASSIGNED TO BEAT

E. A. Fornes, the new police officer who was appointed Thursday, donned his uniform last night and for the first time patrolled a beat in the city. Fornes was assigned to a detail which takes in all territory west of the Southern Pacific tracks which is not covered by the other police officers. Patrolman Fornes is the tallest man on the force, standing 6 feet, 4 inches with his shoes off. He is a native of Iowa, having been born in that state, and is now in the uniform of a police officer waiting to make his first arrest.

Peter Cunja was arrested at Mondak last evening by Constable Hobbs and lodged in the county jail on a charge of contempt of court. Cunja was recently fined \$25 and given time to pay the fine. It is alleged that in place of attempting to pay the fine, Cunja left the vicinity but returned yesterday, and his arrest followed.

DIED

DONAHEDMAN—Near Fresno, on Cherry avenue, September 21, 1919. Florence Donahedman, infant daughter of H. Donahedman.

Funeral was held yesterday from Donahedman chapel.

MARRIED

TAYLOR-SAMMONS—In Fresno, September 21, 1919, Albert E. Taylor and Miss Alma H. Sammons, both of Fresno, Rev. Duncan Wallace officiating.

DR. BUNDY GIVES LAST OF BIBLE LECTURES

Speaks on Second Coming And What It Means to the Jews.

Dr. Walter H. Bundy of New York, delivered an interesting address at St. Paul's Methodist church yesterday afternoon on "The Coming Kingdom and What It Means to the Jews." This was the third and last of a series of lectures delivered by him on the second coming of Christ. The lecture yesterday afternoon was accompanied by the fact that the Jewish New Year was being observed. Dr. Bundy came to Fresno under the auspices of the International Bible Students' Association.

He took his text yesterday from Isaiah 40:1-2 and Romans 11:26, quoting as follows:

"Comfort ye, comfort ye my people, saith your God. Speak comfortably to Jerusalem and cry unto her that her warfare is accomplished—and so all Israel shall be saved."

In speaking of the Jews, Dr. Bundy said: "Among the relics of antiquity that have come down to our day, there is no other object of so great interest as the Jewish people. The searchers after ancient lore have untiringly questioned every object that could give a hint of history or of the truth. Innumerable excavations have been made in order to learn all that is possible to know of human origin, history and destiny. But the most interesting relic, and the one whose history can be most easily deciphered and understood, is the Jewish people. In their we have a monument of continuity of unbroken lineage, upon which is recorded, in clearly legible characters, the origin, progress and final destiny of the whole human race—a living and intelligent witness of the gradual outworking of the wonderful purpose in human affairs in exact conformity to the predictions of their divinely inspired prophets and seers."

"As a people, they are marked as distinct and peculiar by every circumstance of their history and by their common religious faith, as well as by every element of their truly heroic character. As a people they have had much advantage every way in having committed unto them the Oracles of God, developing among them poets, lawyers, statesmen and philosophers, and leading them step by step from the condition of slaves to be a people distinguished and honored among the nations of the world. Rom. 9:1, 2; Kings 4:30-34."

"That the re-establishment of Israel in Palestine is one of the events to be expected in the coming Kingdom, therefore, we have been considering in these lectures, we are fully assured by the Word of God. Amos 9:11-15."

NOT ALL FORSAKEN

"While, unquestionably, Israel has suffered disastrously since the days of this Gospel dispensation, they have not been eternally forsaken, as many have supposed. Again our God did not hold the nation of Israel responsible for the crucifixion of the Christians' Saviour, but he held some of their leaders responsible for the blindness which was occasioned by the false teaching their nation had received from some of their own Scribes and Pharisees."

"That God's promise to Israel of an eternal inheritance upon the earth is sure, we have only to read God's own promise. Gen. 12:14-15, Psalm 105:43."

"Until recently Israel did not understand that their Messiah was to be a king of whom our Lord, concerning whom the prophets spoke, was to be the Head of Christ and those endeavoring to serve Him to constitute the body. This Messiah class is now being selected and when its full number is made up, this great Messiah will take to Himself his power and reign. Then the blindness which has enshrouded Israel will be dispelled, and so all Israel shall be saved. She shall be gathered to her own land (Gen. 48:21 and Ezek. 36), and her faithful patriarchs, as princes, under the guidance of Messiah, will reign over all the earth. (Psalm 45:16.)"

"That Israel is beginning to awaken to this realization, is noticeable; and that the Christian world is becoming cognizant of the fact that God's eternal promise to Israel is yet to be fulfilled, is equally true; and those of us who look for Messiah's great Kingdom, rejoice in the blessing awaiting the Jews, God's chosen people."

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

NOTHING STANDS AS HIGH, as a remedy, for every womanly ailment, as Dr. Pierce's Favorite Prescription. It's the only medicine for women certain in its effects. It contains no alcohol or habit-forming drugs, and has no ingredients printed on the bottle wrapper and attested under oath.

"Favorite Prescription" is an invigorating, restorative tonic, a strengthening and strengthening remedy for all the functional derangements, painful disorders, and chronic weaknesses peculiar to the sex.

For young girls just entering womanhood; for women at the critical "change of life"; for women approaching confinement; nursing mothers; and every woman who is "run-down," tired, or overworked. It is a special aid, and certain help.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Advisor. It is free. For a paper covered copy send Dr. Pierce, Buffalo, N. Y., and state what kind of cover mailing on.

THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Disorders

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that ninety per cent of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Roxall's Orderlies are a positive, pleasant and safe remedy for constipation and bowels disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Roxall's Orderlies are eaten like candy, they act quietly, and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, grip, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effects. They are especially good for children, weak persons or old folks. Three sizes, 50c, 25c, and 10c. Sold only at our store—The Rexall Store. The Monroe Drug Co.

HUMAN BONES UNDER WATER TELL SILENT STORY OF TRAGEDY

Fresno Fishermen Discover Skull and Arm Bones in San Joaquin.

While fishing in the San Joaquin river near Helms' pasture yesterday, C. A. Lane and H. G. Reed of this city discovered the skull and arm bone of a human being. The fishermen exhibit were brought to Fresno last night. Lane and Reed were casting their fishing lines in the clear waters of the San Joaquin when they saw half buried in the white sand the skull and arm bone.

Strangely, the skull, with every bit of hair and flesh gone, was lying face upward, the holes of the eyes, nose and mouth glaring directly into the faces of the astonished fishermen. Near the skull lay part of a human arm. Part of this bone was buried in the sand under water. With their fishing poles, Lane and Reed recovered the remains of what was once a living human being. The water soon dripped from the bones, leaving an exhibit not unlike those seen in museums for medical colleges. The skull and arm bone and evidently been in the water for years.

The teeth were still intact and there was no evidence that the skull had been broken. Lane

LOURIER WILL LEAD OPPOSITION PARTY

Does Not Wish to Appear to
Desert Bad Political
Situation.

OTTAWA, Sept. 24.—I will remain in parliament as leader of the opposition for some time. I would be a deserter of my party if I ran away now," said Sir Wilfrid Laurier to the newspaper men today.

Sir Wilfrid said he had intended to retire, and no doubt would do so in time, but not immediately. He undoubtedly will go through his next session as a leader of the opposition, and he may continue there a good many sessions. Though 70 years old, his health is good. The prime minister stated that the government would resign as soon as possible to enable Earl Gray to leave Canada and the Duke of Connaught to succeed him as governor-general.

NINE KILLED WHEN THEATER COLLAPSES

LISBON, Sept. 24.—Nine persons were killed and forty injured seriously last night when the gallery at the Teatro da Rua collapsed. There were more than 1000 persons in the gallery, and it was overcrowded. When the gallery gave way more than 200 of the spectators were thrown into the pit. The structure was a wooden one and old. The police are at work seeking the victims.

How Nature Makes New Complexions

(From The Family Physician.)
It is well known that the human skin is constantly undergoing a renewing down and building up process. With advancing years or waning vitality this change takes place on the surface of the skin, the lifeless, soiled surface skin layers on so long that its owner gets a "poor complexion."
Common sense tells us this dead skin cannot be renewed or beautified by any cosmetic, lotion or powder. The natural thing to do is to remove the offensive skin—remove the bad complexion. It has been found that ordinary macerated wax completely absorbs the dirt-laden skin, in minute particles, so gently, gradually, as to cause no inconvenience. Macerated wax, which any druggist can supply, is put on at night like cold cream, only not rubbed in, and washed off in the morning. If you would have a brilliantly beautiful complexion, just use this simple treatment.

SAVED FROM GALLIOWS, CONDEMNED MURDERER CONFESSES HIS PAST

WILKESBARRE, Pa., Sept. 24.—Today, after concealing it for the past two years, George L. Marion, the wife murderer, in jail here, who is a theatrical man from New York, revealed his real name and told of his family. Secured in the knowledge that instead of being hanged next week the board of pardons has commuted his sentence to life imprisonment, he determined to let his family know what had become of him. If he had to be hanged he had decided never to let them know.

He said today that his real name is George L. Sullivan, and that his family was once prominent in Savannah, Ga. His first wife died many years ago, but his mother and his two sons, both over 20 years old, now reside in California, and have never known that he was convicted of murder.

SCHOOL CHILDREN TO EDIT DELANO PAPER

Students To Be Reporters
For One Issue of
Publication.

BAKERSFIELD, Sept. 24.—For one issue in October, the Delano Record, a weekly paper, will be turned over to the Delano students to edit. C. H. Seders, editor of the paper, says it promises to be the best issue of the paper ever published. Professor G. W. Corey will be in charge and act as managing editor, assigning the students subjects to write upon. The mechanical work will be done by the publishers. The educational feature for the school is the object sought by both publisher and instructor.

BARTENDER WANTED IN MARIN COUNTY

Acting upon telegraphic information from Sheriff J. J. Keating of Marin county, Deputy Sheriff Kruger yesterday morning arrested John C. Teixeira and lodged him in the county jail on a felony charge. It is understood that Teixeira is wanted by the sheriff of Marin county on a charge of failing to provide for his minor children. He was arrested upon that charge last April and taken to Marin county, but it is presumed that the case was satisfactorily settled, as he returned to Fresno a short time ago. Teixeira is a bartender and was employed in a saloon in this city.

Kodaks and supplies. Finishing for amateurs. C. H. Staples, 1910 Mariposa street, Fresno, Cal.

BOURNE REPLIES TO THE PRESIDENT

Oregon Senator Says Direct
Legislation is a Na-
tional Issue.

ATLANTIC CITY, N. J., Sept. 24.—United States Senator Jonathan Bourne Jr. of Oregon gave out a statement here yesterday in which he takes issue with some of President Taft's remarks in his speech Friday at Peoria, Ill.

The senator said in part:
"To use one of his own favorite expressions, President Taft was disingenuous in his speech at Peoria Friday when he attempted to state his opinion of the people, and also to define his attitude toward the Arizona election. He says he has confidence in the sober second thought of the people, yet he vetoed the Statehood resolution which proposed to submit to the people of Arizona a second time the question whether the constitutional provision for the recall should apply to judges as well as to other officers. Here was a plain proposal to submit to the sober second thought of the people, but the President was not willing, and insisted that the recall of judges must be eliminated regardless of the most matured consideration."

"I regret to believe his statement that he put his heart in his veto of the Arizona resolution, for his veto message contains two direct misrepresentations of the provisions of the Arizona recall and another that is false by necessary implication. I had entertained the charitable view that his errors were of the mind and not of the heart."

"The President was again disingenuous when he said that many of the measures advocated by progressives are state and not national questions. I insist that the initiative and referendum, direct primary, corrupt practices act and recall are more than state questions."

Senator Bourne, after declaring that President Taft does not trust the people, says:
"President Taft's declaring that he is keeping in the middle of the road on the progressive issues is also disingenuous. There can be no middle course on the question of the adoption of the fundamentals of popular government. He who is not for popular government is against it."

NO HURRY.

A Japanese highwayman headed the three who held up Homer Sherwood, of this city, at Willow Hollow. Enslaved by the angry Sherwood, "We have all the time we need," laughed the leader of the three, Newburgh (N. Y.) Dispatch to New York World.

EDISON THINKS GERMANY BACKWARD IN INVENTION

BERLIN, Sept. 24.—Germany, while leading the world in science, is lagging far behind America in the field of invention, in the conclusion of Thomas Alva Edison as the result of a long motor tour through the empire. Edison arrived here last night from South Germany, where an itinerary had been arranged to carry him through the heart of the industrial districts.

"What impressed me most in Germany," said the American inventor this morning, "is its wonderful industrial expansion, especially in the northern part of the empire."

"It was struck however, by the fact that with all their industrial growth, the Germans' technical methods and appliances are far inferior to ours."

NEWSPAPERMAN FASTS FOR THIRTY-ONE DAYS

Remains On Duty Greater
Part of Time; Pronounces
"Cure" Success.

BAKERSFIELD, Sept. 24.—Fasting for thirty-one days to cure an ailment of the stomach, during which time he reduced his weight 27 pounds, Fred Burnell, a local newspaperman, announces the "fast-cure" a success. He says the trouble has entirely disappeared. He kept at his post during most of the time he was going without food, but at the end of the month was terribly emaciated. His first food on breaking the fast, was a little grape juice. He is regaining his strength rapidly.

JAPANESE JAILED FOR PETTY CRIME

Ben Oki, a Japanese, for whom the officers have been searching for the past two weeks, was arrested early yesterday morning at Del Rey by Sheriff McSwain and Deputy Thorwaldson. He was lodged in the county jail. A charge of selling intoxicating liquor without a license was lodged against the Oriental. Philip Palmer signed the complaint, which was issued by City Justice Graham.
For some time past, intoxicating liquor has been sold in Del Rey and the officers have been making a diligent search for the man who was making the sales, as Del Rey is a "dry" town. Suspicion finally pointed toward the Oriental, but before a warrant could be secured, the Japanese left Del Rey and went into the country to work. He was located Saturday night and the arrest was made yesterday morning.

OIL FIELD SCHOOLS SHOW BIG INCREASE

Year of High School Work
Is Added at Taft and
Maricopa.

BAKERSFIELD, Sept. 24.—Maricopa and Taft schools have gained so rapidly in enrollment, that seven teachers are required at the first named place and ten at Taft. The work is continued principally to the grammar grades, but in both schools there has just been established with the sanction of County Superintendent Stockton, first year high school work. In this way, the children of oil men and other west side people who are unable to reach the county seat, get the high school instruction at home.
If they choose to go higher after completing the first year, the Kern County high school is open to them. The enrollment at the high school is now 330 and in the Bakersfield city schools over 1,900, the highest in history.

HICHENS IS TO ATTEND NEW YORK PRODUCTION

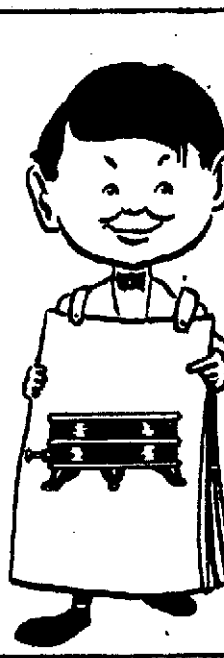

NEW YORK, Sept. 24.—Robert Hichens, the well-known English author, arrived here on the American liner Philadelphia today to attend the rehearsals and production of "The Garden of Allah," dramatized by him, and which will open at the Century Theater. It is Hichens' first visit to America.
Asked how he thought American novels compared with English ones, he said they didn't seem to be any worse than those on the other side. His latest novel, "The Fruitful Vine," will be published next Monday. It deals with the influence of children upon their parents.

SAN FRANCISCO DOES BIG POSTAL SAVINGS BUSINESS

WASHINGTON, Sept. 24.—San Francisco, next to Chicago, has led all the cities of the United States in the volume of postal savings deposits in the first rush to the new banks. Figures in the postoffice department show an average daily deposit of \$8900 for San Francisco for the first four days of the week, the first of the savings bank, as against the daily deposits of \$6,332.50 for the first five days in New York, \$2,884.80 in Boston and \$2,499.40 in St. Louis. Returns for only the first two days have been received here from the Los Angeles postoffice, \$5374 being deposited the first day and \$6629 the second day.

FRUIT PICKERS
Tally tags carried in stock at the Fresno Republican Job Printing office.

When the Children Cook---

A N electric stove is just the thing for children to use in learning to cook. It is easily regulated and there is no danger that the children will catch their clothing on fire. It is light and can be moved into any room.

There are many uses to which the electric stove can be put and for which it is extremely convenient. When it is desired to make candy in the evening, what is more convenient than an electric stove? It can be placed on the table and used to keep victuals hot, too.

San Joaquin
Light & Power Co.

Fresh Fruits, Vegetable and Fish Daily---Always the Best

The housewife need never worry as to what she shall have for dinner. Just phone this market and have your "what to cook" thoughts will be satisfied.
For today we have

New England Market

1027 EYE STREET. PHONE 169.

J. A. WALTON CO.

Today, September 25th—Opening Day

OF THE

J. A. WALTON CO.---Department Store 915 J Street

Beginning Monday and continuing all week will be Opening Days at Walton's. We most cordially extend you an invitation to visit Fresno's New Department Store and get acquainted. We feel sure that you will like our splendid showing of Fall and Winter Merchandise at Popular Prices. Come!

Our Policy

Will be to treat you right always. To offer nothing but worthy goods at fair prices. We believe that reputable merchandise at Popular Prices wins more friends than goods of questionable character. This store is intended for a shopping place for you—rich or poor. You will always have a welcome here.

Lovely New Dress Goods

A comprehensive showing of wool Dress Goods from the best foreign and domestic markets — and perhaps, what's most remarkable, these are all bright brand new weaves for Fall, not shop worn fabrics that have spent the best of their time as shelf and counter ornaments. For making suits and girls' school dresses—a better selection could hardly be desired. Every color that is popular is here, as well as plenty of cream and black. Prices range from 25c to \$1.50 yd.

Dress Trimmings In Profusion

It's a trimming season—a wonderful trimming season in the beauty and richness of the new effects that ornament practically every stylish gown —and we are ready to show them to you at prices that win your favor.

Domestics. Ginghams, Etc.

Good staple domestics. Flannels, ginghams, linens, etc., are here in great quantities and at rock bottom prices. We absolutely guarantee every yard of goods that leaves this department.

Fashionable Ready-to-Wear Garments

The coat and suit section provides most generously toward our informal opening. This is a splendid department and will help hundreds of women to a satisfactory and economical solution of "What Shall I Wear This Winter."

This Store

Is a branch of a splendid institution with headquarters in Santa Barbara, and is in direct touch with the greatest wholesale markets in the world. We believe in the future of Fresno and are here to stay. 915 J street will be our opening location —But watch us grow.
G. C. WYNE, Mgr.

Exquisite Fall Millinery

At prices you will like. The beauty and economy of Walton millinery would be hard to duplicate. The collection assembled here include many new designs not offered elsewhere as we just received them by Saturday's Express in time to present them Monday. A splendid color range. The shapes are pretty and graceful. Yes, there are many turbans and colored Felt Hats for immediate wear. Medium size hats with drooping brims have quaint little arrangement of silk or ostrich feathers or wings. Ask to see our \$7.75 hat.

Ladies' and Children's Underwear

Back of all of our underwear is our standard of quality exacted from all manufacturers with whom we deal. The best underwear is here at the very lowest prices that good underwear can be sold for.

Dainty Souvenirs For Every Visitor

We will appreciate your visit to our store today —to look around, inspect our merchandise. Our salespeople will show you every courtesy. Souvenirs will be given to every visitor.

HOW TO TRANSFER

HERE are suggestions for transferring the pattern before you to any material before working. Perhaps the easiest way is the "window-pane" method. This is successful when the material is thin, like linen, batiste, etc. Pin the sheet of paper and the material together and hold them up against the glass of a window. With a sharp pencil draw on the material the design, which can be easily seen through the glass. If one-half of the design only be given, unpin the paper and turn the other side to the fabric. The strong light behind will make it plain. If you have carbon paper, you should place the sheet between your fabric and the newspaper. This latter is on top. With a sharp pencil go over the outline of the design. The impression will be left in the linen and will last until worked. This method is successful on heavy material.

Completed

WITH the assurance of the popularity of the clematis and the regret that we see so little of this lovely flower, I offer you a centerpiece today that I know will meet with your approval. The easy, graceful way in which the blossoms have been placed around the circle is very attractive, is it not? And then, too, the small amount of work that is demanded speaks much for the favor that should be accorded to the design before you in one-half of its beauty.

If you are going to trace it, let me suggest that you use medium-weight linen and a soft mercerized cotton when working.

In transferring you will see that the design is not balanced exactly. This will necessitate your using one of the three "repairs," and when it comes to filling out the design on the other side of the middle line you can match the overlapping flowers with those in one of the entire motifs and "go on your way." It is really very easy.

I would suggest outline work for these large petals. Do this in coarse thread and secure a heavy corded appearance. If you are going to work in this way, fill the central part in solid stitches or French knots and work the radiating lines in outline stitches, using fine thread.

Another pretty method is the use of outline stitches for the petals and a filling in of the forms with seed stitches or running stitches that give a darning effect and very successfully cover the surface. Try this if you yearn for new effects at small cost of labor.

Work the stems in heavy outline stitch and combine solid and seed stitches

on the leaves, using one kind on each half of the leaf. Work the ends in solid stitches after padding slightly. If your time be unlimited, work the clematis flowers in long-and-short stitches from the outside. This is beautiful when finished and really pays for every minute that you have enjoyed with it.

And the scallops, which you will see I have had made shallow so that your work will be curtailed. Work them in buttonhole stitches and give a second treatment of buttonholing to strengthen and to prevent from fraying.

Colored threads on gray or tan linen give pretty effects for the library or sitting room. The purple or white flowers look well with pale-green leaves. Gray is a good neutral tone on which to work in colors. White touched with pink is another suggestion. And do not forget to use the pale, bluish green for the leaves.

And I think that it will make you glad that you can still sew—if not for yourself, for your friends.

One half of design.

Hand-Run Lace

THIS lace so great a factor in woman's dress, she who is "handy with her needle" will find it a pleasure to make herself some handsome pieces of real hand-run lace.

This is far easier than it sounds. Beautiful "all-overs" can be made by tracing the desired pattern on fine net. Put this on the embroidery frame and darn in the pattern, or outline it with the satin stitch known to all embroiderers. The work can be done in white or even mercerized cottons; or if you want something very lovely, do it with deep silk.

The design can be worked in any color you wish; sometimes two or three shades are used on the same piece of lace. Very beautiful effects are produced by working in silver or gold thread on black net. For the yoke of the evening gown this is lovely and is far less expensive than the kind you buy. The work is fascinating for the woman who has leisure hours to employ in making pretty things.

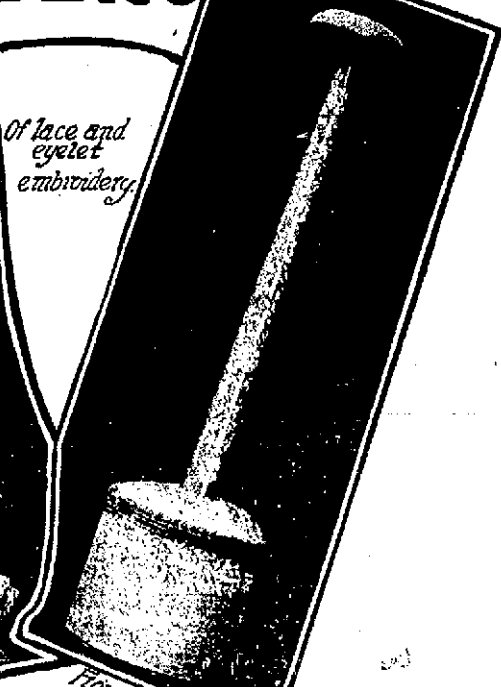

For Amateur Milliners

THE woman who trims her own hats will find a fine thread and needle quite inadequate for fastening ornaments on her hats.

The amateur milliner will find linen shoe thread quite satisfactory if used with a large glove or milliner's needle. Wrap the thread about the center of a bow of velvet and attach it to the hat that way. When sewing on quills, be sure to place the stem of the quill, in order to hold it firm and in one position on the hat. Feathers should be sewed on in the same manner; but if you wish to hold the tips of ostrich feathers in place, sew them with a fine thread and the stem in place so the thread will be invisible.

The amateur milliner, as well as her sister in the profession, will often have better results by pinning the trimming on her hat with a long steel pin, concealing the head under a loop of ribbon or the petal of a flower.

FANCY HAT HOLDERS

From pieces of crotonne

HAVE you seen them—those fascinating hatstands made of ribbon and silk over cardboard? Most women realize the unsatisfactory way of keeping their picture hats or best bunnies in hatboxes that are found to become flattened and ruined, besides being a constant trouble to lift from the closet shelf or to pull out from under the bed.

You can make yourself one of these holders and keep it on one end of the dresser, or on a convenient table in your room, if you do not want to keep your hat in the wardrobe.

Wooden forms can be procured at any store selling art needlework. These in themselves are unattractive, but can be made an object of beauty with very little trouble.

The accompanying illustrations show three pretty styles. The first has the top and base covered with white linen, embroidered with pale blue lines. A silk fringe of blue is centered on the embroidery. The top disk is a thin piece of cardboard, the top and base are used to wrap the stem of the holder, which has first been covered with silk.

Figured ribbon is used to cover another attractive hatholder. One edge

of bordered ribbon has been used to cover the stem, while the other edge and the rest of the ribbon covers the base, which in this case is made of a hollow pasteboard box, filled with coarse hair and covered with ribbon, over which is a circular piece of silver net. This net-disk hex is in reality a pin cushion for the hatpins. The top disk is a thin piece of cardboard, the top and base are used to wrap the stem of the holder, which has first been covered with silk.

Flowered crotonne makes a pretty cover and is used with effect on the holder here pictured.

of lace and eyelet embroidery

Figured ribbon

Nightcaps

WHAT woman is there who has seen the fascinating little nightcaps that are now displayed in the shops and has not longed to possess one?

They are of net, lace and embroidered or dotted satin, and are designed to protect the hair during the hours of sleep.

They are quite simple to make. All that is required is an eighteen-inch square of material and a yard or so of ribbon, with the addition, perhaps, of a few yards of lace edging.

They are cut exactly in the same manner as the old-fashioned nightcap, or the dustcap of a later day. Cut a circle eighteen inches in diameter, and sew around it several rows of narrow Valenciennes lace.

Run a casing all the way around, two and one-half inches from the edge, and through this run a narrow ribbon, which is drawn up to fit the head and tied in a bow on the side. That is all. The cap is ready to wear.

A variation of this style can be made by shirring the circle into a band of lace insertion cut long enough to fit the head. This has a lace frilling about the edge and a folded band of ribbon that joins in front with a soft felt bow or on the side in a many-looped bow.

One of the prettiest models I have seen is of dotted satin, gathered into a band which showed a garland of tiny pink and lavender ribbon roses embroidered on it. On the left side was placed a soft bow of pastel shaded ribbon, and a narrow lace frill peeped out from beneath the headband.

Another one of handkerchief linen had tiny blossoms embroidered at intervals all over it. This was held in about

the head line with a pleated frill of linen edged with lace, the joining point being covered with a cord of pale blue ribbon, which began and terminated under a wreath of tiny forget-me-nots.

The needlewoman can vary her nightcaps as much as she chooses and have as many as she likes, for the cost of the material is small and it requires very little time to make one. A set of these little caps would be an ideal gift for a bride.

Another pocket contains a small pin-book fitted out with various sizes and kinds of pins, not forgetting several small and a few large safety pins. In this pocket is a folding shoe-buttoner and in a similar pocket is a little purse where the child can safely carry her handkerchief and the change for her fare.

The slippers and fan were carried in the main portion of the bag.

Such a bag would be acceptable and pleasing to any little girl who knows the joys of attending darning class.

A Child's Slipper Bag

IF YOU are a lover of children you will not fail to make glad the heart of your favorite little girl friend by giving her a dainty bag to carry her slippers in when she goes to dancing school. This you can make from three-fourths of a yard of a dark colored silk and the same amount of a bright flowered satin or brocade for a lining.

FOR SALE Miscellaneous

FOR SALE—MISCELLANEOUS

FOR SALE—Gentle mare, suitable for all light work. \$32 L.

FOR SALE—Good second-hand gas stove. \$23.00. Invo. St. Phone 2761 L.

M. SAIER IS INJURED IN AUTOMOBILE ACCIDENT NEAR COALINGA

Fresno Jeweler Thrown
From Auto; Shoulder is
Badly Bruised.

Tire Explodes Causing Auto
to Skid; Others Escape
Uninjured.

M. Saier, a jeweler of this city and a well known Fresno resident, was injured yesterday near Coalinga, when an automobile in which he was riding tipped over to one side and threw him to the ground. Saier was thrown onto a rock and his left shoulder was badly hurt. The shoulder may be fractured. Saier was taken to the hospital where he was given medical treatment, and was brought to Fresno last night and immediately taken to his home. Dr. Floyd Burks was called and dressed the injured shoulder. The physician stated last evening that the injury would disable Saier for several weeks.

Axel Allen, a contractor of this city, and a machinist, also of Fresno, were in the machine at the time of the accident. They escaped uninjured. The accident occurred when a rear tire on the automobile exploded. The machine skidded and in passing over the rough, rocky road, the front tire also exploded. This threw the automobile onto its right side and Saier was thrown out of the tonneau. Allen was driving the machine and the machinist was occupying the front seat with him.

W. H. Worawick of this city was driving his automobile ahead of Allen. After the accident, Worawick went back to Allen's assistance. Allen's machine was not damaged. They righted the automobile and repaired the damaged tires. The trip was then made to Coalinga.

The party of Fresnoans were going to view some oil property near Devil's Den. Worawick, Allen and the rest of the party continued on to the oil property but returned later to Coalinga and brought Saier back to Fresno in Worawick's machine. The party arrived in Fresno late last night.

The accident happened about thirty miles this side of Coalinga. Allen was driving the machine at about forty or forty-five miles an hour.

WEATHER IS TOO MUCH FOR THE PARK CROWDS

But Few Hear Program of
Merit, Because "Jup
Plu" is Busy.

With the weather man on the look-out for showers almost anywhere in California, including Fresno, and with a dampness and coolness pervading the atmosphere, not anything like the usual crowd was at the band concert in the park last night. But a rather meritorious program was generously applauded by the faithful who filled the benches about the stand, and drifted in scattering groups along the walks.

Robert Burns had the solo number, a cornet selection with variations, and pleased the crowd. Rosalind's "Barber of Seville" served in classic bits, and shot through with the enthusiastic swaying of the Spanish waltz, won appreciation that was matched by the reception of a selection from De Koven's "Robin Hood."

The whole program was decidedly good. Owing to the fact that union church services in the park are over for the season, the concert started at 7:45 last night instead of 8 o'clock, as formerly. But one more concert is to be given in the park this season. It will be next Sunday night.

EQUAL SUFFRAGE LEADER ASKS "SQUARE DEAL" FROM VOTERS

Says California's Reputation for Fair Play in
Hands of Men.

Mrs. A. Edson Character-
izes Women's Suffrage
Progressive Move.

"We are depending on the civility of the men of California to sustain the reputation of our state for fair play in the election on October 10th." These words, Mrs. A. Edson of Los Angeles last night expressed the slogan of the closing days of the state-wide campaign for women's suffrage. Mrs. Edson will speak from an automobile on the streets of Fresno tomorrow evening in support of amendment eight. Last night at the Sequoia Hotel, she discussed freely the question which is now uppermost in the minds of the voters of California.

Mrs. Edson is conducting a whirlwind campaign for the amendment she claims will be carried by a handsome majority. In expressing the slogan of the closing days of her strenuous campaign, she explained that Oregon gave women their rights by a tremendous majority of 2 to 1 several years ago. For this reason, she and the other leaders of the movement for women's suffrage are hoping that California will not be outdone by her sister state to the north.

Mrs. Edson is an interesting woman. She is wrapped up in the cause she is trying so hard to present to the people and every argument made in favor of amendment eight is driven clearly into the minds of her hearers. In every speech she uses the "square deal," which was made famous by Colonel Roosevelt.

Mrs. Edson believes the automobile method of conducting a campaign, as introduced in this state by Governor Johnson, most effective. In southern California, where the cities are within striking distance of each other, the leaders used automobiles and the street meetings nightly attracted several hundred men and women.

COURTESY IN KERN.

Mrs. Edson came to Fresno from Kern county where she found considerable of the "old-time prejudice" existing among the workmen in the oil fields. At Bakersfield Friday night, Mrs. Edson conducted a rousing meeting and although many of her audience failed to display any enthusiasm at the start, she was given round after round of vigorous applause before she had half finished. At Maricopa, she addressed 400 employees from the oil fields. The speech was made from an automobile and as she arose to talk every man in the crowd removed his hat.

"I never saw a more courteous set of men in my life," said Mrs. Edson. "When I began talking, I could read in the faces of several men near the auto that they had come to the meeting out of curiosity. The expressions on the faces of those who were against equal suffrage, however, I believe many of these became less prejudiced against the movement before the meeting was over."

Mrs. Edson characterizes women's suffrage as a step toward progressive government. She expressed this while referring to California as a progressive state and pointed to the claim that the corporate interests are opposing the movement because they realize that victory for the women means less power for them. The Merchants and Manufacturers' Association of Los Angeles, in a letter to a recent arrangement at the hands of Mrs. Edson. She declared the "M. and M." is

Showers Are Predicted for Fresno Today

Showers are predicted for today. Growers are advised to keep their raisins in the stack.

Last evening, Forecaster Bonnett received a telegram San Francisco, three hours later than the regular 5 o'clock report, from the San Francisco weather office, stating that showers might be looked for during the night and today. The cause is a center of low pressure over Northern California. While the disturbance was state-wide, up to the time the message was filed, no rain had fallen anywhere in California.

Many trays were stacked during last week's threatening weather, and the muggy condition of things yesterday did not do much to restore confidence.

SMITH PRELIMINARY TO BE POSTPONED

Prosecution's Star Witness
is Suddenly Called
to Arizona.

Owing to the fact that C. W. Finney, adjuster for Ringling Brothers' circus, is at present in Arizona on business and is unable to be in Fresno today, the preliminary hearing of A. B. Smith, county clerk and his son, George A. Smith, county license collector, on a joint charge of taking a bribe, will not be held, as scheduled. District Attorney Denver Church will this morning appear before Police Judge Henry J. Briggs and make a motion that the preliminary examination be postponed until some future date, when Finney, who is the star witness for the prosecution, will be in this state. District Attorney Church last night stated that there was nothing strange in the inability of Finney in being unable to come to Fresno Monday, as he is a very busy man. The circus is at Phoenix, Ariz., today.

All arrangements had been made for the preliminary examination. At 10 o'clock yesterday morning, it was supposed that Finney would be here for the hearing, as he had been notified by telephone that the examination would be held on that date. Yesterday morning, District Attorney Church received a telegram from Finney stating that he was suddenly called to Arizona and that he would return to California in a short time and would then inform the district attorney of his whereabouts.

District Attorney Church had previously sent a subpoena so that Finney could be legally summoned to Fresno but it is presumed that the subpoena went astray.

Finney's father, John Finney, and his son are jointly charged. They are alleged to have accepted 50 circus tickets from Finney, valued at \$40, in consideration of which they compelled the circus adjuster to pay for but one side show while as a matter of fact there were two side shows in connection with the circus.

fighting the unions under the claim that if women are given the power to vote, the laboring classes will have more control over the reins of the government.

SAYS CAUSE HELPED.
"The M. and M. is fighting us hard on all sides and we believe it has aided the Anti-Suffrage League in importing female speakers from New York to pull the wool over the eyes of the people. I am sure that the equal suffrage advocates secured consent of a dozen merchants of Los Angeles to put placards in the windows of the largest stores downtown. The business men agreed to decorate the windows with yellow streamers and flowers during the closing days of the campaign."

Two days later, the M. and M. held a meeting and drew up resolutions against the plan.

Mrs. Edson says the Anti-Suffrage League is a definite organization in southern California, but regardless of this fact she is confident the south of the Tehachapi will roll up a handsome majority for amendment eight. Fifteen years ago, the south gave a majority of 3,000 to the movement, according to Mrs. Edson.

"We are looking to San Francisco to turn the tide, as the tide will come from there. However, we are confident the metropolis will give us a majority, and if this happens, we are sure of victory. In the rural communities, I have found the sentiment to be in favor of equal suffrage and there is little doubt in my mind as to the result. The opposition in the south from the corporate interests has proved a boomerang for us. We will get the labor vote, as the M. and M. is fighting the unions over our heads."

Mrs. Edson will speak from an auto on the streets of Bakersfield tonight and here tomorrow evening. The fourth entrance to the courthouse park has been selected for the local meeting.

MEDFORD, Mass., Sept. 24.—General Samuel C. Lawrence, formerly a director of various large corporations, died tonight, aged 83 years. He had a prominent part in the reorganization of the Atchafalaya, Topeka & Santa Fe railroad.

Sagging or Hanging Cheeks and Chin

(From Woman's Magazine)
Flabbiness of cheeks, chin or neck has been considered very difficult to correct, until the recent discovery of a veritable wonder-worker for such conditions. The preparation is so simple and harmless any woman can easily make and apply it. It is all the more remarkable in that its beneficial effects are apparent even after the first application, both as to appearance and the feeling of comfort produced.
The formula is: Powdered saxolite, 1 oz., dissolved in 1 pt. of water. Use daily as a wash lotion. The solution tends to contract and solidify the loose, baggy tissue, smoothing out the folds, crow's and wrinkles, besides having a refreshing influence on skin of coarse texture and large pores. As with hazel and saxolite can be had at any drug-store at little cost, many will doubtless be glad to have this successful recipe.

TO POPULARIZE CANES AT THE FASHION SHOW

Go Along With the Other
English Ideas to
Be Exhibited.

On the educational side of the Fashion Show, which will open here Thursday, will be efforts to introduce some fashion fads to which Fresno has been lately stranger. Among these is going to be an effort to make the carrying of walking sticks popular among the well dressed young men of the city.

This is a fad that has never taken here. Canes became quite the thing a year ago, but not in Fresno. A man with such a cane was conspicuous. Now, this winter, the English craze has brought along with it the English walking stick. This is by no means the flimsy thing of bamboo or some other light material, such as has been seen in the past year or so. Not so. The English stick is a real stick, and to be hobby, is something of a solid one. It is to be of service as well as adornment, and of course, Englishmen have definitely abandoned that old adage that "A man who carries a cane and is not lame in the leg, is lame in the head." And one of the efforts at the Fashion Show will be to teach the fact that a cane belongs to the past of fashion, and the walking stick has come into its own.

DR. I. NITOE, JAPANESE EDUCATOR, TALKS ON PEACE QUESTION

Speaks Before Americans
at Unitarian Church and
Japanese at Barton.

Says Rumors of War Are
Started by "Little Men"
of the Quill.

To an audience at the First Unitarian church yesterday morning, Dr. Inago Nitobe, the well known Japanese educator, who is just beginning a tour of the United States in the interests of international peace, delivered an interesting address on the Japanese and the relations of the Japanese to the United States but with the world at large.

At the Barton Opera House last night, Dr. Nitobe addressed an audience of almost a thousand Japanese on the relations they should have with the people in foreign land they are living. He reminded them of the faults and advised them to the remedy. He entreated them to refrain from all evil customs if they wish to gain the respect and confidence of the American people. He advised them to feel at home in this country, as the talk of conflict comes only from journals of saffron hue.

For more than two hours, the Japanese educator spoke to the large audience and careful attention was given every remark that fell from his lips. The address was delivered in his native tongue, but he was assisted by a number of local Japanese at a luncheon given at the Hughes hotel yesterday noon. Mayor Rowell was also a guest at the luncheon.

VERY MUCH HUSTLED.
Dr. Nitobe was the guest of a number of local Japanese at a luncheon given at the Hughes hotel yesterday noon. Mayor Rowell was also a guest at the luncheon.

He remarked that he was glad to be able to speak in a Unitarian church for thirty years ago he had studied the unity of God and the unity of man. In Japan, India, and even in America, he said it is the tendency of religion to become a dream. "To dwell like the monks of Sicily, like a monk apart from the maddening crowd. The modern tendency of religion is to make all man one with and kin with one duty toward God." The purpose of religion, he said, is to unite man with God and man with man. In this connection he said:

"The chief obstacle to this is the lack of understanding among the various nations and races of the common mind and conscience of them all. I hope that before many decades, wars and rumors of wars will cease from the earth, but we know there are now rumors of wars on the Pacific. Those rumors do not come from the broad breast of the Pacific. I have just come across it and it is as quiet as its name. They come from my shores or yours, and they come mostly from little men who write sensational articles for a little price in the newspapers."

They love to quote the first half of Kipling's stanza:

"For east is east and west is west and never the twain shall meet, 'Till earth and sky stand presently at God's great judgment seat."

"But they forget to quote the last half of that first stanza."

In geography there is no such thing as east or west. Looking toward the north the east is right and the west is left of anywhere you choose to start from. You remember after the discovery of America the Pope issued a bull giving everything west of Portugal and everything west to Spain.

SAME IN THE HEART.
"The distinction is convenient, but has no application in the region of the heart. In the space of thought there is no east or west. What is right or wrong to you is right or wrong to us. What is attractive or repugnant to you is the same to us. There are differences, but we must distinguish between differences that are divergent and differences that are convergent."

"I knew a missionary lady once, a very fine woman, who came over to conquer the heathen Japs. She kept looking for points of difference, just as some of our countrymen come over to New York and try to smell out nasty things they find there. She once complained to me of her hard lot, living in such a topsy-turvy land. The cats had no tails; the dandelions were cream color; and the chickens had the feathers running the wrong way. I told her I had seen horses in New York without tails; that the cream colored

PLAN WHIRLWIND FINISH OF PREPARATIONS FOR THE FAIR

Week of Busy Days Will
Begin With Boosting
Trip Tomorrow

Big Interest in Coming Race
Events; Copa de Oro
to Star.

With the opening of the Fresno County fair but a week off from tomorrow, the directors and executive force is preparing for a whirlwind finish to the months of preparation that have been completed. Activity at the fair grounds will be intense. The decorators are at work; carpenters and electricians are making the last of the changes that have been put through for the better accommodation of large crowds; more shade are being provided for the large entries of stock, and daily the horse barns are taking on more and more of the activity attendant on a big meet such as is to be held here. But activity is not being confined to the grounds. Tomorrow, a whirlwind campaign of publicity is to be started, with the first of two big boost trips that will carry the electricians through most of this section of the valley, in automobiles.

Already, about a dozen machines have been lined up for the trip, but it is desired that everyone who can will join the cavalcade, which is to start at 8 o'clock tomorrow morning. The place of assembling will be announced later.

Several of the well known horses entered for the harness races here, which have been working out on the Fresno track, have gone to Hanford to take part in the races at the Kings county fair, this week, before returning here.

Forecast of the race events that may be expected here are now attracting a great deal of attention. Since the day when Barney Oldfield, in his big racing car, broke his own and incidentally, the world's record for fifty miles on the Fresno track, record breaking performances have been more or less expected. The track is recognized as unusually fast, when in condition, and nothing is now being left undone, that is necessary to put it in condition. And all this has a good deal to do with the fact that the breaking of a minute of what he will have to do to beat "time," and it is believed he can do this on the Fresno track if he can do it at all. To add interest to the coming event is the fact that the necessary officials will be on hand to make the record, in case it is hung up, a real, new world's record, officially recognized and wherever harness races are stepped.

dandelions were a rare species and were also found in New England, and that the chickens with the feathers running the wrong way had just been imported from America.

"I know we have our weaknesses. It is charged that our workmen do not live up to their contracts; that they do not have the commerce morality. Twenty-five years ago, when I was studying in Germany, Bismarck made the same charges against his own people, but no one makes it now. I am sorry there are liars in the world, but they are not confined to the Japanese."

"One of our business weaknesses is that we mix sentiment with business. Hire a Jan servant at \$5 a week and if you treat him well, he will lay down his life for you."

"There is no fiction commoner than the statement that the Japanese bank hire Chinese cashiers to get honesty. The statement is not true. The banks where Americans present their letters of credit and find Chinese cashiers are not Japanese banks, but American and English banks, and the reason they hire Chinese is because they are cheaper than white men and will submit to more abuse than Japanese."

"Before coming to this country, I made inquiries of every Japanese bank in Japan and I found only one that has any Chinese clerks at all. That one has two whom it employs for the convenience of its Chinese customers."

Dr. Nitobe left on the Owl last night for Los Angeles.

S. B. CATARRH CURE
Cures catarrh, asthma, etc., at Smith Bros.

This Morning at 9:30, the Opening of The Big Rummage Sale in the Bargain Basement----

1801-1819-Mariposa Street.

STEINWAY PIANOS Remain Unexcelled

From the very beginning of its production the STEINWAY gained a lead over other pianos, which it has constantly maintained.

In the line of real improvements—not mere fads that are used as "talking points" by salesmen—the STEINWAY has always been, and is now, the pioneer. It is endorsed by practically the entire body of authoritative experts and pianists the world over.

Moderate terms if desired.

Sherman & Co.
Player Pianos of All Grades Steinway and Other Pianos
Victor Talking Machines.
